## ECHIQUIER MAJOR SRI GROWTH EUROPE - I Share (ISIN: FR0011188275)

Subfund of the Echiquier mutual fund (SICAV) managed by La Financière de l'Echiquier

### Investment objectives and investment policy

ECHIQUIER Major SRI Growth Europe is a dynamic sub-fund seeking long-term performance through exposure to European equity markets and investing in leading growth companies in their sectors, using a double "best in universe" and "best efforts" ESG approach. This objective is combined with a non-financial approach incorporating environmental, social, and governance (ESG) criteria, such as the issuer's environmental policy, employee protection or the competence of the management team. The non-financial objective is to help companies move forward on ESG issues by engaging in dialogue with them on a regular basis and by sharing with them specific areas of improvement monitored over time.

The MSCI EUROPE index (Bloomberg ticker MSDEE15N) is a representative indicator of the management of Echiquier Major SRI Growth Europe. This index is only used for information purposes. It reflects changes in the equity markets of Europe's most developed countries. It is calculated in euros, with dividends reinvested. Investors are advised that the portfolio's composition may differ from that of the benchmark index.

The UCITS implements active and discretionary management based on a rigorous stock-picking process through an in-depth evaluation of the companies included in the portfolio. An extra-financial analysis carried out in-house by several managers and analysts completes the financial analysis and focuses in particular on the governance and policies implemented by the companies in terms of the environment and human resources.

Echiquier Major SRI Growth Europe has a 60% minimum exposure to European equities and a 25% maximum exposure to non-European equities. The assets of the fund consist of a 60% minimum of European large caps. Up to 40% of its assets may be exposed to European small and mid-caps. However, in order for the fund to be eligible for PEAs, 75% of its assets are invested in PEA-eligible financial instruments.

In constructing the portfolio and assessing non-financial criteria, the management team selects stocks according to an internal ESG rating methodology, after applying a sector exclusion filter.

This approach may have certain methodological limits detailed in the prospectus. In addition, for more detailed information on the non-financial rating methodology used for the UCITS and its limits, investors should refer to the Transparency Code of La Financière de l'Echiquier available on [www.lfde.com](http://www.lfde.com).

The UCITS reserves the right to invest a maximum of 25% in fixed-income products. At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Echiquier and using the ratings produced by agencies. Eligible securities are deemed investment grade, i.e., having a minimum Standard & Poor's rating of BBB- or equivalent or considered as such by the management team.

Forward financial instruments, whether traded on regulated or over-the-counter markets, may exceptionally be used to hedge the portfolio against currency risk, and also against equity risk when the manager expects a sharp decline in market performance.

**Recommended investment duration:** This Fund may not be suitable for investors who plan to withdraw their money within 5 years.

**Allocation of income:** Accumulation.

**Deadline for centralising subscription/redemption orders:** Investors can make a request for redemption every business day. Redemption requests are centralised each market trading day before 12 p.m. (Paris time) with our centraliser BNP Paribas Securities Services and executed on the net asset value calculated on the closing price on the day they are centralised.

**Frequency of valuation:** The net asset value is calculated daily, except for days when the Paris stock market is closed and on official French public holidays.

**Taxation:** Eligible for PEAs

### Risk/return profile

This indicator represents the historical annual volatility of the UCITS over a 5-year period.

The UCITS's risk indicator reflects the exposure of its net assets to its investment universe.

Historical data such as that used to calculate the summary risk indicator may not provide a reliable indication of the future risk profile of the UCITS.

The risk category associated with this UCITS is not guaranteed and may change over time.

The lowest category does not mean "risk-free".

Significant risk(s) for the UCITS not included in this indicator:

**Credit risk:** Credit risk is the risk of an issuer's credit rating being downgraded or of it defaulting. The value of debt securities or bonds in which the Fund invests may fall, causing the Fund's net asset value to decline.

**Guarantee:** The capital initially invested is not guaranteed.
