## LunaJets' pursuit of excellence is and stays, ARGUS certified

ARGUS certificate awarded in person to Eymeric Segard, LunaJets CEO and Alain Leboursier, LunaJets Sales Director at EBACE 2018 by Joe Moeggenberg, ARGUS CEO and President.

In November 2015, LunaJets was the first European certified charter broker to earn the prestigious ARGUS certification: the industry's most respected symbol for excellence.

Two years later, LunaJets is pleased to renew this well-recognized accreditation. We are incredibly proud that an industry leading auditor like ARGUS repeatedly confirms our strong work ethic and the values we stand by:

**«Honest, well-intentioned and professional business relationships.»**

ARGUS, which stands for the Aviation Research Group US offers a prestigious Certified Broker Ratings Program that only the finest charter brokers qualify for. This program represents an unbiased way for private aviation booking platforms to prove compliance with industry best practices.

LunaJets is extremely pleased to rank amongst the industry's leading players, with this certification endorsing our commitment to providing a transparent, safe and customer-oriented service.

Being ARGUS certified means that we only operate in the client's best interest, that LunaJets' marketing tools and communication are truthful, and confirms our financial stability and reporting in accordance with Swiss law.

Date : 1 June 2018

LunaJets meets ARGUS' high standards on all fronts: thanks to our extensive in-house employee training program we provide our team with in-depth industry knowledge and experience. Our chosen operators and operational procedures meet ARGUS' strict requirements too: we only collaborate with reliable, widely trusted private jet charter operators.

In other words, ARGUS certifies that LunaJets meets the highest industry standards, consequently allowing us to guarantee the legitimacy of our business entity.

As ARGUS' Marketing Manager Sally Feldmann describes it: "An ARGUS Certified Charter Broker rating uniquely identifies the company as one that emphasizes legal, secure and comfortable air travel for their clients on every flight."

We sincerely thank ARGUS for their dedication to regulate our industry and look forward to continuously hone our skills to uphold these standards.

#### **About ARGUS**

ARGUS International, Inc (ARGUS) is a specialized aviation services company whose mission is to provide the aviation marketplace with data and information necessary to make informed decisions and manage risk. ARGUS provides world-class aviation software and business management solutions. ARGUS Charter Operator Ratings are the most recognized and requested independent source of overall operator quality.

#### **About LunaJets**

Based in Geneva since 2007, LunaJets is a leading European private jet booking platform, offering the best prices and personalized 24/7 worldwide services. LunaJets organizes all types of business and leisure flights, on board of different aircraft, from very light to super large jets and commercial airliners. With access to a fleet of over 4,800 airplanes, LunaJets uses a proprietary smart technology to match client needs with available private jets.
