Introduction

This report provides a summary of demographic and related data for each Greater London Assembly constituency. The profiles are designed to provide an overview of each area by combining data on a range of themes. Each constituency is compared to equivalent statistics for Greater London.

The report takes much of the data used in the recently produced borough profiles, which are available on the [London Datastore](#). Small area profiles have also been produced for those more interested in patterns at neighbourhood level. These include profiles for Ward, and both Lower, and Middle Super Output Areas (LSOA and MSOA).

A summary of the 2008 election results for the London Assembly for each constituency can be found on the [London Datastore](#) also (see pages 12-16 of the London Elections report).

The profiles are formatted to show the most recent data for each indicator plus a comparison with a figure about 4 years ago, to compare the change over the term since the last election. The change figure is included, along with the London average for the most recent data only.

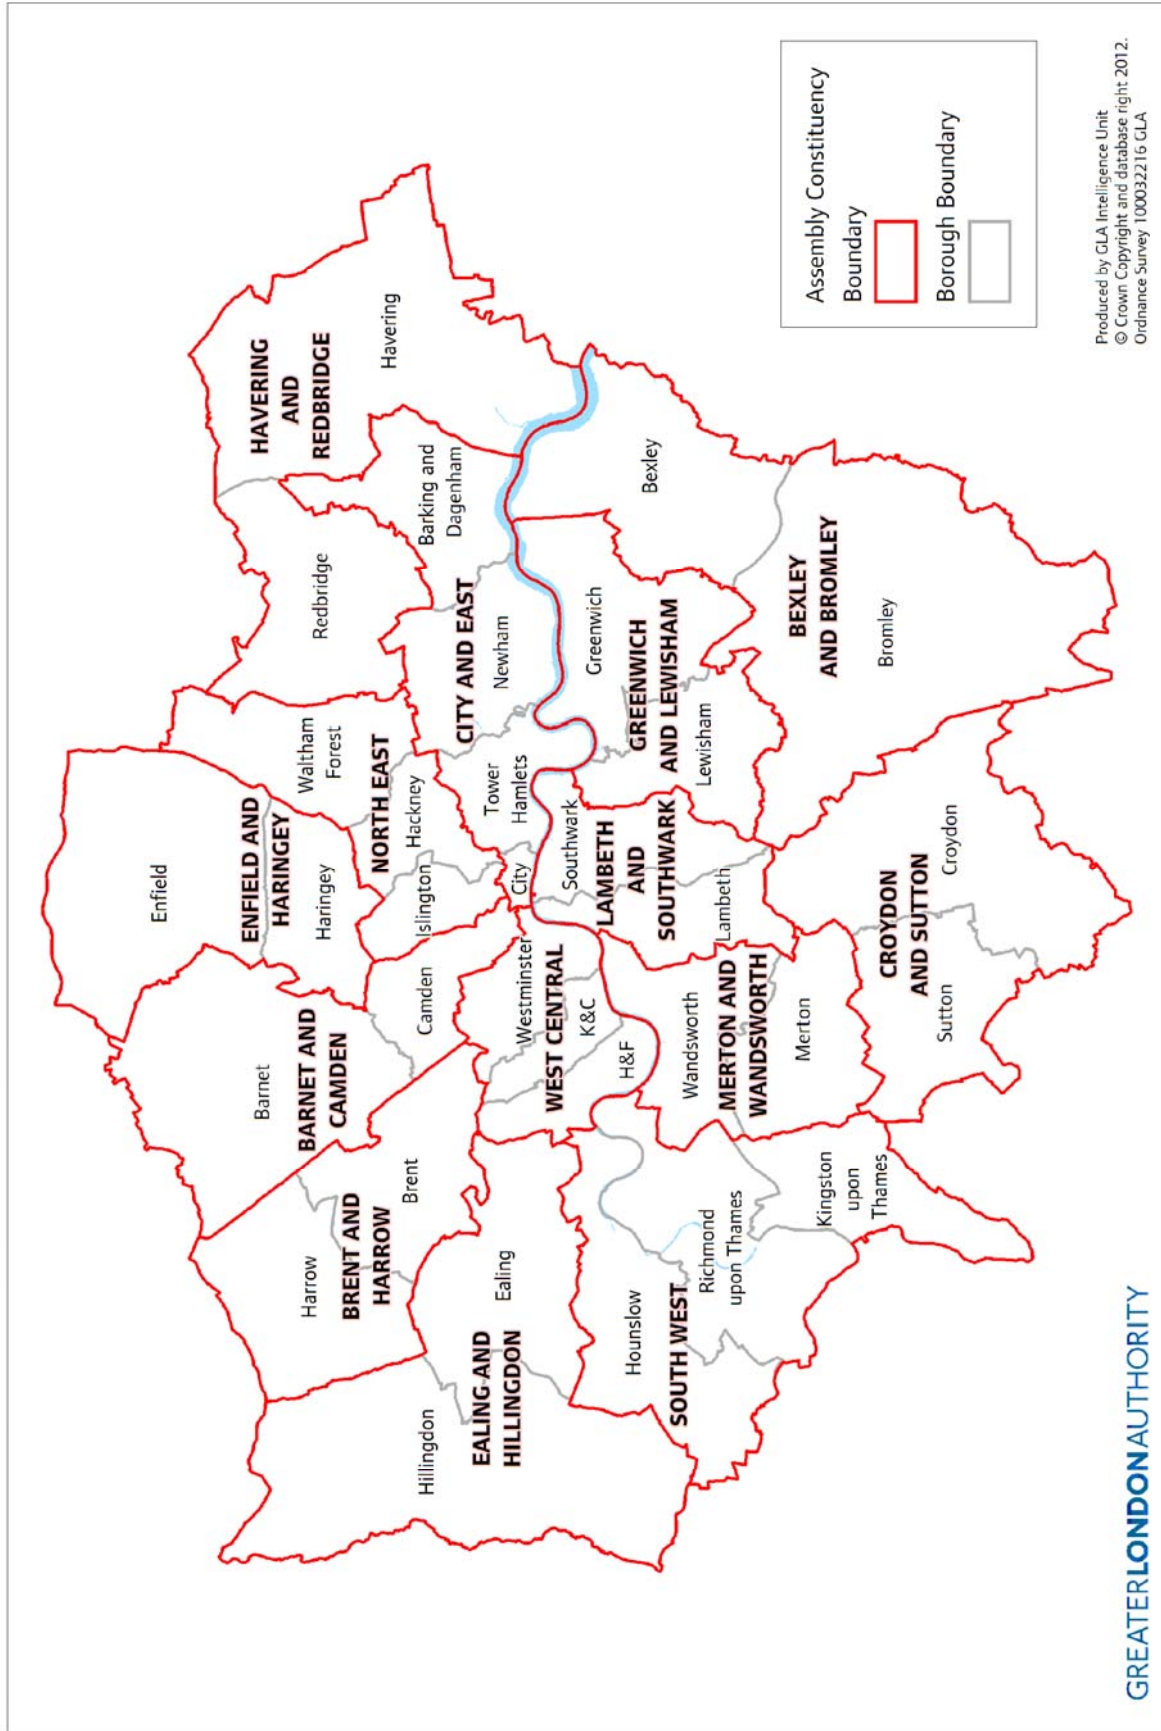

Along with this report, a spreadsheet and an InstantAtlas report have been produced. Within the spreadsheet, there are charts that show most of the indicators, so that it is easy to compare each of the 14 constituencies, and see how each area ranks. The InstantAtlas report shows the data on an interactive map, and bar chart.

At the back of this report, as well as in the spreadsheet is a list of data sources used for these profiles, along with any important notes about the data.

The majority of the Greater London Assembly constituencies consist of two boroughs (see the map on the following page). All constituencies are listed below:

- Barnet and Camden
- Bexley and Bromley
- Brent and Harrow
- City and East London - (Barking and Dagenham, City of London, Newham, Tower Hamlets)
- Croydon and Sutton
- Ealing and Hillingdon
- Enfield and Haringey
- Greenwich and Lewisham
- Havering and Redbridge
- Lambeth and Southwark
- Merton and Wandsworth
- North East - (Hackney, Islington, Waltham Forest)
- South West - (Hounslow, Kingston upon Thames, Richmond upon Thames)
- West Central - (Hammersmith and Fulham, Kensington and Chelsea, Westminster)
