SES IMAGOTAG

by Market Hub

Traditional paper price tagging is expensive, error-prone, inaccurate, inefficient and slow. We've partnered with SES Imagotag to bring you the best electronic shelf labelling system on the market.

Using this, along with digital signage, gives retailers the ability to change pricing strategies in real time based on changing market conditions saving you time, resource and ensuring you stay ahead of your competitors at all times. The system integrates seamlessly with our PULSE software.

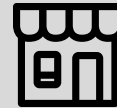

KEY FEATURES

Ultra low power
consumption

Display size from
2" to 7.4" with
high resolution

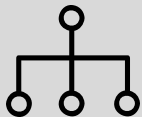

Visually beautiful
product design

Super wide viewing
angle (near 180°)

Fast response
time, less than 15
seconds

WHAT DO THIS MEAN FOR YOUR BUSINESS?

- Cost Reduction. No more manual price changes
- Enhanced sales & increased profitability
- Immediate reaction to market situations
- Simplified processes for store personnel
- Use of highly modern technology improves stores appearance
- Automatic price updates from HQ to branch in seconds

CUSTOMERS

"Pulse has been instrumental in streamlining my business, it has enabled me to drastically increase my bottom line even though my income has remained static. My customers find the shopping experience greatly enhanced by the clear concise labelling the ESL bring"

Mike Bamford, SPAR UK
