**Guidelines to create your 4 page multi-agent A5 leaflet**

Please note: This is a template to be copied and created by yourselves. Please do not print and use as it is. The agent logos used in this template are only examples.

If you have all the following software – Industry standard CS6, INDD, Photoshop and Illustrator, we can send you an editable file so you will only need to amend the agent logos. Please email marketing@agentsmutual.co.uk to request this.

**Front page:**

**Top panel – Headline**

searching for your perfect new home?

This headline needs to be set as large, but well balanced, and centred on a dark blue background within the space left by the middle image panel.

The headline font is AG Book Rounded typeface (Regular 33pt, 38pt leading), white with no initial cap. While the dark blue background panel is PMS 302 or CMYK 100, 71, 39, 34.

The smaller map markers should be used on the blue background, as shown, to add visual interest to the execution. They can be used in three sizes and three different opacities (30% 50% 75% of solid) and should be placed to deliver a balanced design and without interfering with, or detracting from, the other visual elements.

These are available as separate elements as .png or .eps files on the marketing page.

**Middle panel**

This panel needs to include the three property images which should be cropped as shown – or similarly, so that the map-marker obscures as little of the property as possible. The images should bleed off both sides of the ad. The images are provided as separate files on the Marketing page.
Headlines on the images
OnTheCoast, OnTheHill and OnTheTopFloor are provided as separate files and can be found on the marketing page. These should be positioned so that they are legible and ideally so the map marker points to the property.

New & exclusive map marker
The map marker needs to be placed over the three images on the right hand side so that the bottom of the pointer is centred above the OnTheMarket.com logo, obscuring as little of the main images as possible. The end of the pointer should sit above the logo and the upper edge should overlap into the upper dark blue panel as shown.

Middle pages:

Please note: There are two headline options. Number 1 is only to be used if the agents participating in this advert have chosen different ‘other’ portals - with some on Rightmove and some on Zoopla. Number 2 can be used if the ‘other’ portal is only Rightmove, or only Zoopla.

1. the only place to view what’s on the market with all these local agents
2. where can you find all the properties from all these local agents?

This headline needs to be set as large as it can comfortably go and centred within the space left by the middle white panel.

The headline font is AG Book Rounded typeface, white (in this template it is Regular 40pt, 43pt leading). While the dark blue background panel is PMS 302 or CMYK 100, 71, 39, 34.

Small map marker graphics
The smaller map markers should be used on the blue background, as shown, to add visual interest to the execution. They can be used in three sizes and three different opacities (30% 50% 75% of solid) and should be placed to deliver a balanced design and without interfering with, or detracting from, the other visual elements.

These are available as separate elements as .png or .eps files on the marketing page.

Middle panel
This panel needs to be white. Where a group of agents’ logos are used, they should run at a good size in a row on the left hand end of the panel in alphabetical order.

On the right hand side of the white panel, a map marker with the copy “FIND NEW & EXCLUSIVE PROPERTIES HERE”, in white capitals out of the red centre circle, needs to be placed so that the bottom of the pointer is centred above the OTM logo. It should be sized so that half the height of the pointer overlaps the lower dark blue panel and around 2/3 of the outer light blue ring overlaps into the upper dark blue panel. In cases where this is unfeasible due to width restrictions, please use your discretion and aim to produce a well-balanced design.

The map marker is available as a separate file, complete with the correct wording, on the marketing page.
Bottom panel
The OnTheMarket.com logo is to be added here on the right hand side – the map marker part of the logo should be centred on the width of the page.

Body copy to be AG Book Rounded Regular 11pt (13pt leading). The copy to be included in this panel is:
