Marcia O'Regan

"I signed up to Martha Fraser's 5 Day Business Reboot because although my business was getting great results, I felt it needed more organisation to bring it to the next level possible. Very quickly as part of this 5 Day 1:1 Business Reboot with Martha, I could see straight away where I was wasting some of my energy in my business on projects that had a lower return and not spending enough time on my key projects, which I didn't realise until doing this 5 day Business Reboot that they even were my key projects! By the end of this 5 days I had a crystal clear plan, I was super focused on my projects and my action plan for both me and my team. I had a new clear and confident understanding of my business for the next 12 months. I finished the 5 days with 6 business Assets that will ensure I create my most successful year possible for the next 12 months. Every business needs to take time out to do this reboot to make sure you maximise and not waste your next 12 months!"
