

Technical Datasheet

E-Glass Fibre Tape 3 mm thick

Material	E-Glass (52-56% SiO ₂)
Construction	Warp ECOS9-1290/1 +/- 102 yarns/200 mm Weft ECOS9-2000/1 +/- 160 yarns/m
Weight/mtr	Depends on the width
Weavestyle	twill weave
Thickness	3 mm +/- 7%
Width	20 mm to 150 mm +/- 7%
Temperature resistance	550 °C
Melting point	846 °C

Changes, that will serve the technical performance, can be added without prior notice. This technical data is based on our present knowledge and only for information.
