SAFETY AND WARNING INFORMATION

Before using the appliance for the first time

Before connecting the appliance to the power mains, please read carefully the instructions for use which describe the appliance and its correct and safe use. The instructions apply to several appliance types/models; thus, settings or equipment may be described herein which is not available in your appliance. We recommend saving this instruction manual for future reference and attach it to the appliance if it is sold in the future.

Check for any damage or irregularities on your appliance. If you find your appliance is damaged, notify the retailer from which you have purchased the appliance.

Before connecting the appliance to the power mains, let the appliance rest in a vertical position for a minimum of 2 hours. This will reduce the possibility of operation faults due to the effect of transport on the cooling system.

Important safety instructions

WARNING

Risk of fire/flammable materials

The appliance must be connected to the power mains and grounded in compliance with the effective standards and regulations.

WARNING! Do not locate multiple portable socket-outlets or portable power supplies at the rear of the appliance.

Before cleaning the appliance, unplug it from the power mains (unplug the power cord from the wall outlet).

⚠ WARNING! If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

⚠ WARNING! When positioning the appliance, ensure the supply cord is not trapped or damaged.

⚠ WARNING! The LED light must not be replaced by the user! If the LED light is damaged, contact the customer helpline for assistance.

SAFETY AND WARNING INFORMATION

⚠ WARNING! Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.

⚠ WARNING! Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.

⚠ WARNING! To avoid any hazard resulting from poor stability of the appliance, make sure it is installed as instructed.

Freeze burn hazard

To avoid freeze burn, never put frozen food in your mouth and do not touch frozen food.

Safety of children and vulnerable persons

The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

Cleaning and user maintenance shall not be made by children without supervision.

Remove the packaging intended to protect the appliance or particular parts during transport and keep it outside the reach of children. It presents danger of injury or suffocation.

When removing a used appliance, disconnect the power cord, remove the door, and leave the shelves in the appliance. This will prevent children from locking themselves in the appliance.

For European markets only

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

Children shall not play with the appliance.

SAFETY AND WARNING INFORMATION

Cleaning and user maintenance shall not be made by children without supervision.

Children aged from 3 to 8 years are allowed to load and unload refrigerating appliances.

Warning regarding the refrigerant

The appliance contains a small amount of an environmentally friendly yet flammable gas R600a. Make sure that no parts of the cooling system are damaged. A gas leak is not hazardous to the environment, but it could cause eye injury or fire.

In case of a gas leak, ventilate the room thoroughly, disconnect the appliance from the power mains, and call a service technician.

Important information on the use of appliance

WARNING! This appliance is intended to be used in residential household and similar applications such as:

- staff kitchen areas in shops, offices and other working environments;
- farm houses and by clients in hotels, motels and other residential type environments;
- bed and breakfast type environments;
- catering and similar non-retail applications.

⚠ WARNING! Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction.

The appliance may not be used outdoors and it may not be exposed to rain.

Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.

If the appliance will be out of use for an extended period of time, switch it off using the relevant button, and unplug it from the power mains. Empty the appliance, defrost it, clean it, and leave the door ajar.

In case of an error or power supply failure, do not open the freezer compartment unless the freezer has not operated for over 16 hours. After this period, use the frozen food or provide sufficient cooling (e.g. a replacement appliance).

Technical information on the appliance

Rating plate can be found in the appliance interior. It indicates data on voltage, gross and net volume, type and amount of refrigerant, and information on the climate classes.

SAFETY AND WARNING INFORMATION

If the language on the rating plate is not the language of your choice or the language of your country, replace it with the one supplied.

⚠ WARNING! Do not damage the refrigerant circuit.

INSTALLING YOUR NEW APPLIANCE

- Stand your appliance in a dry and well ventilated place. Keep the appliance out of direct sunlight, rain or frost.
- The diagram shows the temperature range of each climate class. The climate class of this appliance is specified on the rating plate. Use beyond this range may result in poor performance.

Climate class	Ambient temperature
SN	+10°C to +32°C
N	+16°C to +32°C
ST	+16°C to +38°C
T	+16°C to +43°C

- Sufficient clear space should be available around the appliance to facilitate ventilation and heat dissipation.
- Installation and reverse the door can refer to the installation instructions.

NOTE:

- The product must be correctly installed, located and operated in accordance with the instructions contained in the Installation Instructions provided.
- Parameters provided in table are design parameters. Because of the various reasons there will a slight deviation between actual dimension and design parameter. The data listed are only for reference.

When reversing the door, the cabinet installation can refer to Built-In Fridge Freezer installation instructions.

1. To ensure the doors are fully closed/sealed, conduct a test on both doors following the installation of decor door, such as using a sheet of paper in-between the unit door and its seal and closing the decor door and seeing if there is any tension observed when pulling the sheet of paper-the sheet should hold in place and not fall out.
2. For reversing the door, the hole covers need to be removed from the current location and refitted to cover the new holes. If these break when removing and can be replaced by accessory bag.

DESCRIPTION OF THE APPLIANCE

- Appliance interior equipment may change according to the appliance model.
- The diagram may slightly differ from the appliance you purchased, please get more information in the E-manual.

A: Fridge

1. Electronic control
2. Multi-function rack
3. Storage shelves
4. Fresh drawer
5. Vegetable drawer cover
6. Vegetable drawer
7. Door racks

B: Freezer

8. Drawers

CONTROL PANEL

NOTE: The control panel may differ by model, so choose according to your appliance. Please refer to the E-manual for more information.

TYPE 1: Electronic Control with Wi-Fi function

TYPE 2: Electronic Control without Wi-Fi function

Power

Press and hold “Power” button for 3 seconds to turn the standby function on or off.

When the standby function is on, the display panel will show “--”.

Eco

Press the “Eco”  button to turn on the energy saving function, the “” icon will be illuminated.

When the Eco function is on, the temperature of fridge is automatically switched to 6°C and the temperature of freezer is automatically switched to -17°C. Press the “Temp”  or “Eco”  button revert back to previous setting.

Super Cool

Press the “Super Cool”  button to activate this function. The fridge temperature indicator will display 2°C. Auto-turns off after 6 hours or when left “Temp” or “Super Cool” button is pressed.

Fridge Compartment Temperature

Press the left “Temp”  button repeatedly to cycle through the available temperature settings from 8°C to 2°C.

Freezer Compartment Temperature

Press the right “Temp”  button repeatedly to cycle through the available temperature settings from -14°C to -24°C.

Super Freeze

Press the “Super Freeze”  button to activate this function. The “” icon will be illuminated and the temperature for the freezer is set to -24°C.

Auto-turns off after 52 hours or when “Super Freeze” or right “Temp” button is pressed.

Alarm

High temperature alarm:

In non-standby function, the temperature inside the box is detected after 24 hours of powering on. If the temperature remains too high for 4 hours, an alarm will sound to alert you and the “” icon will illuminated.

After more than 10 minutes or briefly press the “Alarm” button, the acoustic alarm will stop, but The “” icon will remain illuminated until the actual temperature in the appliance drops below the alarm level.

Door open alarm:

Leaving the door open for over 1 minutes will activate door alarm. Press any button or close the door to stop it.

Demo Mode

This mode, indicated by “OF”, stops making cool air but appears operational.

1.Appliance with WiFi function

To switch on demo mode, press and hold “Power” and “Wi-Fi” buttons at same time for three seconds and the buzzer beeps 3 times. The display panel will show “OF”, the Demo mode has been turned on.

CONTROL PANEL

If there is no button operation for 10 seconds, it will keep display "OF", otherwise it will display the set temperature.

To switch off demo mode, press and hold "Power" and "Wi-Fi" buttons at same time for three seconds and the buzzer beeps 3 times.

2. Appliance without Wi-Fi function

To switch on demo mode, press and hold "Power" and "Alarm" buttons at same time for three seconds and the buzzer beeps 3 times. The display panel will show "OF", the Demo mode has been turned on.

If there is no button operation for 10 seconds, it will keep display "OF", otherwise it will display the set temperature.

To switch off demo mode, press and hold "Power" and "Alarm" buttons at same time for three seconds and the buzzer beeps 3 times.

Convert

Press and hold "Convert"  button for 5 seconds to turn the Convert function on or off.

When this function is activated, the temperature in the freezer compartment will be set to 0°C, while the refrigerator compartment temperature will be set to 4°C.

Activating the Convert function:

- Setting the temperature in the Smart Zone compartment: use the right "Temp" button to set the temperature between -5°C and +3°C.
- Setting the temperature in the Fridge compartment: use the left "Temp" button to set the temperature between +2°C and +8°C.
- When the Convert function is activated, the Super Cool, Super Freeze, and Eco functions will be deactivated, while other functions can be activated.
- When the Convert function is activated, the Freezer High temperature alarm function will be disabled.

- Deactivating the Convert function: press the "Convert" button for 5 seconds again. A beep will be sounded, and the Convert indicator will no longer be lit.

Wi-Fi

NOTE: This clause applies only to appliances with Wi-Fi function.

Connecting your refrigerator to Wi-Fi

Connect Life app

Connect Life is a smart home app that allows you to communicate with your smart appliances using a smartphone or tablet.

Installation

1. Open the Apple App Store (iOS) or the Google Play Store (Android) on your smartphone.
2. Search for the "ConnectLife" app. You will see an app with the following icon:

3. Download and install the ConnectLife app provided by Connect Life, LLC.

Alternatively, you can scan the following QR code with your smart phone or tablet to find the ConnectLife app:

Connecting your refrigerator

After installing the Connectlife app, sign in or create an account and follow these steps:

1. Ensure the appliance is powered on and the display panel is active. You'll know it's ready when the panel lights up.

CONTROL PANEL

2. Press and hold the Wi-Fi button for 3 seconds until you hear a beep and see the “” light flashing after it constantly on for a few seconds.

3. Ensure Bluetooth is enabled on your phone and open the ConnectLife app. Look for the pop-up indicating that a new appliance has been found. Tap the button on the pop-up and follow the instructions to proceed.

4. If a pop-up doesn't appear, tap the button called “Add appliance” or “+” in the app.
5. Locate “Refrigerator” in the device list and select it.
6. Follow the instructions in the app to connect your refrigerator. Once the setup is complete, your refrigerator will appear on your home screen.

NOTE:

- The appliance will remain in pairing mode for a maximum of 5 minutes.
- To factory reset your network settings, press and hold the Wi-Fi button for 6 seconds. You will hear two beeps once the appliance is reset.
- After resetting, the appliance will automatically go into pairing mode.
- A solid Wi-Fi light indicates the appliance is successfully connected to the home network.

CLEANING AND CARE

- For hygiene, clean the appliance (exterior and interior accessories) regularly at least every two months.
- Ensure the appliance is completely dry before switching back on and plugging back into the mains socket.
- Wipe the inside of the appliance with a weak solution of bicarbonate of soda, and then rinse with warm water using a wrung-out sponge or cloth.
- Take care to keep door seals clean. Sticky food and drinks can cause seals to stick to the cabinet. Wash the seals with a mild detergent and warm water. Rinse and dry them thoroughly after cleaning.
- This product contains a light source of energy efficiency class G.
- For more cleaning details, please refer to the E-manual.

HELPFUL HINTS AND TIPS

Energy saving tips

We recommend that you follow the tips to save energy.

- Try to avoid keeping the door open for long periods.
- Ensure the appliance is away from any sources of heat.
- Don't set the temperature colder than necessary.
- Don't store warm food or evaporating liquid in the appliance.

Switching off your appliance

If the appliance needs to be switched off for an extended period, the following steps should be taken prevent mould on the appliance.

1. Remove all food.
2. Remove the power plug from the mains socket.
3. Clean and dry the interior thoroughly.
4. Ensure that all the doors are wedged open slightly to allow air to circulate.

- Please refer to the E-manual for more information.

TROUBLESHOOTING

- If you experience a problem with your appliance or are concerned that the appliance is not functioning correctly, you can carry out the following easy checks before calling for service.
- **NOTE:** You can find more relevant information in the E-manual.

WARNING

Don't try to repair the appliance yourself. If the problem persists after you have made the checks mentioned below, contact a qualified electrician, authorized service engineer or the shop where you purchased the product.

DANGER

Risk of child entrapment. Before you throw away your old refrigerator or freezer:

- Take off the doors.
- Leave the shelves in place so that children may not easily climb inside.

Problem	Possible cause & Solution
Appliance is not working correctly	Check whether the power cord is plugged into the power outlet properly.
	The ambient temperature is too low. Try setting the chamber temperature to a colder level to solve this problem.
A layer of frost occurs in the compartment	Check that the air outlets are not blocked by food and ensure food is placed within the appliance to allow sufficient ventilation. Ensure that the door can be fully closed.
Temperature inside is too warm	You may have left the doors open too long or too frequently; or the doors are kept open by some obstacle; or the appliance is located with insufficient clearance at the sides, back and top.
Unable to connect appliance to Wi-Fi network	The Wi-Fi password was entered incorrectly, or the network could not be found. For specific network configuration operations, please refer to the electronic manual.

DISPOSAL OF THE APPLIANCE

It is prohibited to dispose of this appliance as household waste.

Packaging materials

Packaging materials with the recycle symbol are recyclable. Dispose of the packaging into a suitable waste collection container to recycle it.

Before disposal of the appliance

1. Pull out the mains plug from the mains socket.
2. Cut off the power cord and discard with the mains plug.

Technical Parameters Table(this part is only available on models with Wi-Fi):

	Frequency range	Maximum output power
Wi-Fi	2400-2483.5MHz	≤20dBm
Bluetooth	2400-2480MHz	≤20dBm

Hereby, Hisense Ronshen (Guangdong) Refrigerator Co.,Ltd declares that the radio equipment type is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <https://auid.connectlife.io>.

WARNING

Refrigerators contain refrigerant and gases in the insulation. Refrigerant and gases must be disposed of professionally as they may cause eye injuries or ignition. Ensure that tubing of the refrigerant circuit is not damaged prior to proper disposal.

Correct Disposal of this product

This marking indicates that this product should not be disposed of with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

SUGGESTION OF USING THE APPLIANCE

To avoid contamination of food, please respect the following instructions:

- Opening the door for long periods can cause a significant increase of the temperature in the compartments of the appliance.
- Clean regularly surfaces that can come in contact with food and accessible drainage systems.
- Clean water tanks if they have not been used for 48h; flush the water system connected to a water supply if water has not been drawn for 5 days.(Special for models with water tanks)
- Store raw meat and fish in suitable containers in the refrigerator, so that it is not in contact with or drip onto other food.
- Two-star frozen-food compartments are suitable for storing pre-frozen food, storing or making ice-cream and making ice cubes.
- One-, two- and three-star compartments are not suitable for the freezing of fresh food.
- If the refrigerating appliance is left empty for long periods, switch off, defrost, clean, dry, and leave the door open to prevent mould developing within the appliance.
- **NOTE:** The information below is for reference only, as functions may vary by models. Please get more details in the E-manual.

Order	Compartments type	Target storage temp.[°C]	Appropriate food	Storage life
1	Fridge	+2~+8	Eggs, cooked food, packaged food, fruits and vegetables, dairy products, cakes, drinks and other foods which are not suitable for freezing.	/
2	Four-star	≤-18	Seafood, freshwater aquatic products and meats.	≤3 months
3	Three-star	≤-18		≤2 months
4	Two-star	≤-12		≤1 month
5	One-star	≤-6		
6	Zero-star	-6~0	Fresh pork, beef, fish, chicken, some packaged processed foods, etc.. Partially packed/wrapped up encapsulated processed foods (non-freezable foods)	≤3 days
7	Chill	-3~+3	Seafood, pork, beef, chicken, freshwater aquatic products, etc..	2~7 days
8	Fresh Food	0~+4	Fresh pork, beef, fish, chicken, cooked food, etc..	≤3 days
9	Wine	+5~+20	Red wine, white wine, sparkling wine etc.	/
