|    | Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.                                                                                                                                                                                                                                                                       |    | Combination microwave: This oven allows to combine two different ways of cooking (Traditional with microwaves). Combined ovens increase cooking opportunities, while providing maximum flexibility of household appliances.                                                                                                                                                                                                                                                                    |
|    | Air cooling system: to ensure a safe surface temperatures.                                                                                                                                                                                                                                                                                                                               |    | With a simple and intuitive interface, the COMPACTscreen provides a pleasant user experience, thanks to the interaction with the knobs.                                                                                                                                                                                                                                                                                                                                                        |
|    | Triple glazed doors: Number of glazed doors.                                                                                                                                                                                                                                                                                                                                             |    | Electric                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|    | Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.                                                                                                                                                                                                                                                      |    | Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.                                                                                                                                                               |
|  | Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.                                                                                                                                                                            |  | Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food. |
|  | Cooking with the simultaneous use of the heating element in combination with fan and microwave supply.                                                                                                                                                                                                                                                                                   |  | Microwave + grill element: The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.                                                                                                                                                                                                                                                                                    |
|  | Microwave: Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food. |  | Compact appliances with a height of 45 cm - perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles.                                                                                                                                                                                                                                                                                                          |
|  | Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.                                                                                                                                                                                                                                                                           |  | The oven cavity has 2 different cooking levels.                                                                                                                                                                                                                                                                                                                                                                                                                                                |
