## Secure Agile communications with Quantum Cryptography

**Code:** 20/19

**Company:** Parico

**Location:** Base Bordon Innovation Centre, 60 Barbados Road, Bordon, Hampshire, GU35 0FX

### Company Description:

Parico are a technology disruptor SME, operating across the UK Defence sector. We specialise in developing secure, innovative Software and Infrastructure technical solutions to solve complex technical challenges and problems across our Armed Forces communities.

### Project Description:

Parico are developing a range of agile information services that will enable our Armed Forces to increase their combat power to achieve shared situational awareness, understanding and freedom to act.

The selected candidate will have the opportunity to work closely with us at our Innovation Centre to develop information services that support native Quantum based algorithms in both an on-premise environment or cloud environment, across a dispersed headquarters.

### Minimum Requirements:

- Good programming knowledge (e.g. Java, Python or JavaScript)
- Knowledge and previous experience in working with the Microsoft Office Suite (Outlook, Word, Excel and PowerPoint)
- Availability to work in the UK.

### Further details:

8 weeks minimum fixed term contract to be agreed with successful candidate but nominally with a start date around 15 June 2020 to attend the SPIN Induction day at the Satellite

Applications Catapult, and completion before 20 September for the Showcase the following week. Salary is £1,500 per calendar month gross.

**Closing Date for Applications: 5pm Friday 17 April 2020**

Applications should be made through the online form attaching a CV, before the closing date. Please note that elements of the form left incomplete will be deemed to render the application ineligible. They will be checked for eligibility and forwarded to the employer.
