Embrowderly by Jule

Your desired look is difficult to achieve if your brows are naturally sparse and lack definition. Sometimes this happens as we grow older; sometimes it is simply in the genes.

Embrowderly™ (not to be confused with microblading) is a method whereby fine strokes are penetrated into the skin for a hair-like finish. The appearance is completely natural and blends with or without hair along the brow bone. It lasts for up to two years and is the perfect hassle-free way to keep your brows manicured and shaped.

We offer this service via Specially Trained Therapists. Initial consultation is free, you need to allow two and a half hours for your first treatment and this must be pre-paid. Whilst our normal policy requires 24hrs notice for cancellation, our Embrowderly service is heavily booked weeks in advance and we have to have 48hrs notice for cancellation or prepayment is lost.

For lash Extensions you will also be asked to sign off on 'comfort' before leaving the salon. (In a small number of cases lashes can cause irritation, if this happens they should be removed to prevent you from rubbing at the eyes and potentially causing infection)

Lash Boutique

We offer Occasional Lashes, LVL Lashes (length volume lift), Mink Lash extensions and for the ultimate effect Russian Volume Mink Lashes.

All our treatments are performed by Specialist Lash Therapists trained in Jule Academy. Occasional Lashes are perfect for an upcoming event. LVL Lashes are a very natural way to achieve superior definition where lashes appear longer and fuller. The effect will last for 4-6 weeks. If you opt for lash extensions our trained specialists will advise you on the best option to achieve your desired look. We only use Mink lashes; they are weightless, soft to the touch and completely comfortable to wear. To maintain the full effect you will need to have the lashes refilled every 4-6 weeks.

Facials

Do you know how your skin reacts to stress, the elements, hormonal changes?

A facial helps clear pores; if something is wrong your therapist will tell you why; professional extractions are safe and won't distress the skin like pimple popping; at an instore beauty counter your skin is being assessed under fluorescent light... some things you just can't DIY!

Treat yourself and see the benefit.

Skin Clinic

At Jule we pride ourselves on stocking the very best skincare products and offering the most advanced skin care treatments for anti-ageing concerns, pigmentation, acne, rosacea, sun damage or eczema.

Our skin care specialists attend regular intensive training in the Jule Academy delivered by Epionce and Dermalogica, ensuring that they always stay abreast of the latest technological innovations. Private consultations are free.

We specialise in **Medical Microdermabrasion**. This is suitable for all skin types and is a safe and effective way of exfoliating the skin without using any chemicals or lasers. This procedure stimulates new collagen and elastin production whilst improving fine lines and texture.

Epionce Peels have anti-bacterial and anti-inflammatory properties making them very suitable for even sensitive skin types. A series of gentle but effective peels will give long term results relieving congestion, dullness and delivering a clearer radiant complexion.

IPL Rejuvenation produces impressive results in eliminating the ageing effects of sun damage as well as reducing facial redness by using pulses of visible white light to the face. It can be used to treat pigmentation, sun spots, broken veins, rosacea and skin elasticity.

Private consultations are free
(€15 charge for no show/late cancellation)

Jule was one of the first skin clinics in Ireland to offer **Microneedling**. This is an advanced non aggressive aesthetic treatment which targets pore size, fine lines, sun damage and acne scarring whilst boosting collagen levels. It creates pathways permitting the introduction of serums and growth factors into the deeper levels of the skin. This stimulates the skin to regenerate and repair itself naturally, creating smoother, brighter, healthier, younger-looking skin. You can expect your skin to look plumper, healthier and brighter within a few days with visible signs of rejuvenation and repair in 2-6 weeks.
