- World Curling Federation (WCF) rules apply, unless otherwise indicated below or explained at the Team Meeting.
- The 28 teams are split into four (4) groups, based on a WCF ranking established over the last 3 years. Each group plays a round robin. At the end of the round robins there will be a ranking for 1st and 2nd position in each group. The matchups for the play-off games are as per the attached play-off chart.
- Four (4) Teams will qualify their Member Associations for the WMDCC 2020.
- All games will be eight (8) ends, with extra end(s) to break tied games.
- The first named team in each draw plays the stones with the dark-coloured handles, and wear dark coloured upper playing garments. Second named teams in each draw play the stones with the light-coloured handles, and wear light coloured upper playing garments.
- There will be a nine (9) minute practice for each team before each round robin game. The practice starts 30 minutes before the scheduled game time. In the round robin, the team with dark stones practices first.
- At the conclusion of the team's pre-game practice, each player delivers a stone to the tee at the home end; the first stone with a clockwise rotation, and the second stone with a counter-clockwise rotation. The distances are combined to determine the Last Stone Draw (LSD) for that game. The team with the lesser LSD distance has the choice of delivering first or second stone in the first end. If the LSD total are equal, the best non-equal LSD has the choice; if the individual LSDs are equal, a toss of the coin will determine which team has the choice. Each player delivers an equal number of clockwise and counter-clockwise LSD stones (3 of each turn).
- The ice for the play-off games is pre-determined as per the attached play-off chart.
