Monodraught Ltd

This is the latest IKEA store that opened in Spain and demonstrates IKEA's commitment to energy efficiency. According to IKEA this outlet in Valladolid is 20% more efficient from an energy standpoint than other Spanish IKEA shops. The IKEA store that opened in Arroyo de la Encomienda in late 2011 has an intelligent air conditioning system that modifies power depending on the number of people in the store at all times. In addition, a further complex of this store without windows has just now been completed and consists systems of energy efficient lighting with LED technology and also with 115 mm Monodraught SUNPIPES[®] supplied via our Spanish Distributor Neutech results in energy savings of up to 40%.
