

# INTERNATIONAL WINDCATCHER in San Francisco!

## Natural Ventilation

Added on 20/04/2016

Monodraught WINDCATCHER® systems have recently been installed by a local contractor in USA. The building will be used by a world renowned product design company called Fuse Project.

A refurbished industrial building; the offices will house nearly 100 designers who were seeking a low energy alternative to air conditioning. The San Francisco area, also called the Bay Area, has a particular micro climate which makes it almost ideal for natural ventilation. The UK based Consultants, Buro Happold, had recently opened up an office in San Francisco and therefore recommended Monodraught systems as a possible solution.

We have supplied 4N° SOLA-BOOST® X-Air 200 systems and 2N° WINDCATCHER® X-Air 200 systems.

Halifax House, High Wycombe  
Buckinghamshire, HP12 3SE
