

MIDI PUNTO BANCO

Midi Punto Banco is a game of chance, the object being to bet on the hand which will come closest to a count of 9.

Your first step to getting started is to place your bet. There are three bets to choose from. The 'bank' or 'banco' which pays 19-20. The 'player' or 'punto' which pays even money. Finally, there is a 'tie' or 'egalite' which is less common and pays 8-1.

With all bets placed, play can begin! The dealer will draw the cards to prescribed drawing rules.

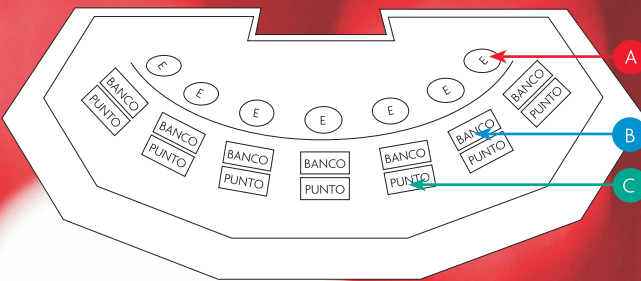

If the 2 card total exceeds 9, the last digit counts as the value of the hand. For example, $6 + 7 = 13$, counts as 3.

Tens, Kings, Queens and Jacks count as zero. All other cards count as their face value.

A hand is made up of not less than two and not more than three cards.

Unlike other casino favourites, there are no optional draws in Punto Banco. If the rules require a third card to be dealt to either hand, it must be dealt.

Remember, the dealer will always ensure that the cards are drawn according to the rules - so all you need to do is sit back, relax and enjoy betting on which hand will be closer to 9 or whether there will be a tie or egalite!

中等百家樂

中等百家樂是一種碰運氣的遊戲，目的是投注在最接近9點的一手牌上。

開始的第一步是下注，共有三種投注可供選擇，莊家的賠率是20賠19，閒家是1賠1，最後是較不常見的和局，賠率是1賠8。

當全部注碼下定後，便可以開始牌局，荷官會根據既定的派牌規例派牌。

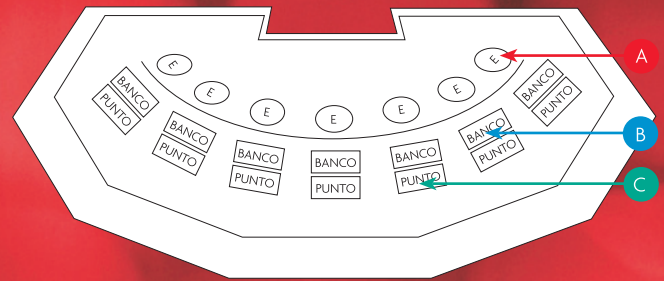

如果兩張牌的總點數超過9點，這手牌的點數是兩張牌總點數減除了9點後的數值，例如： $6+7=13$ 這手牌便算作3點。

十點，K，Q，J 都算作0點，其他的牌依面值算點數。

一手牌共有至少2張但不超過3張牌。

與賭場其他的遊戲不同，百家樂是不用叫牌的。在一手牌中，如果牌例規定要派第三張牌，就一定要派牌。

要記住，荷官會確保依例派牌，你只需輕鬆安坐，並享受投注，看那一手牌會最接近9點，還是會有和局。
