Themes

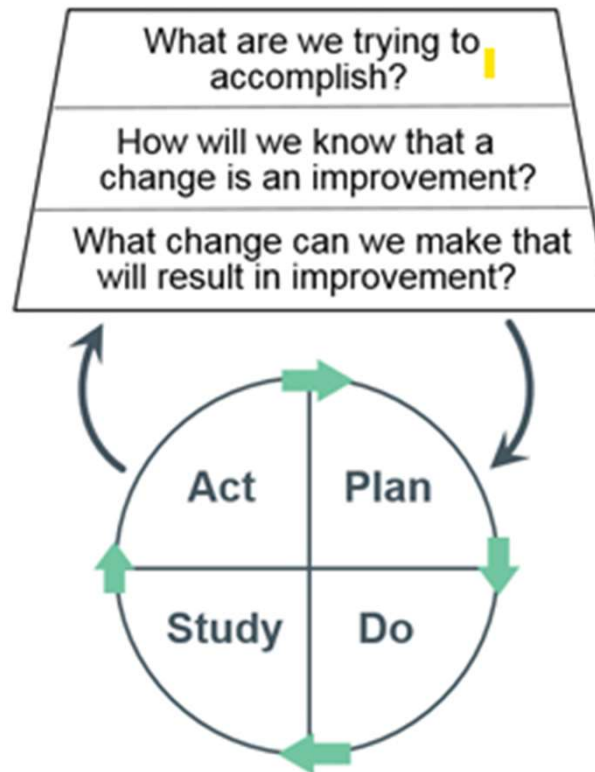

NICE National Institute for
Health and Care Excellence

Themes

Model for Improvement

Themes

Keeping people well and preventing ill-health

Providing as much care as safely possible near to people's own homes, and keeping people out of hospital

Improving the capacity of our health service in order to meet growing needs, and Sláintecare waiting time targets

Making better use of technology and modernising how our health services are delivered

Making sure that safe care is delivered at low or no cost

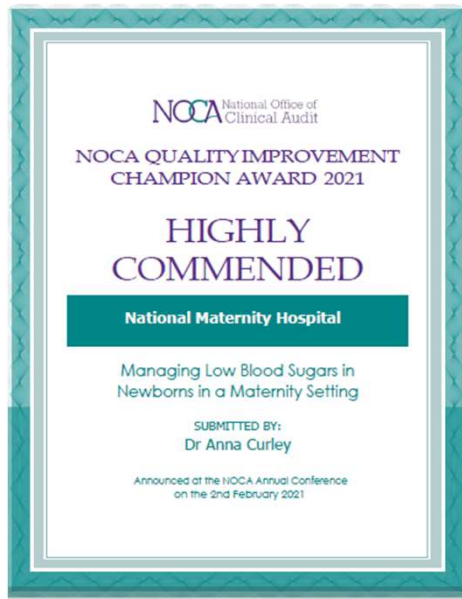

Coronavirus
COVID-19
