

MASSAGE SYSTEM

The Relaxor Massage System allows at your fingertips either a full sensual body massage or a concentrated massage on one of five specific areas of the body.

With varying levels of intensity of massage and automatic shut off, soothing waves massage your whole body with rolling wave action and can provide relaxation for the restful sleep and reduce aches and pains.

*Only available in the foam mattresses.

Dual Massage System

Enhance your comfort and pleasure with our adjustable bed accessories. Developed to maximise your wellbeing. The following accessory is available with all our triple slat adjustable beds.

Infra Red Remote Control

The infra red remote control replaces the corded handset for extra flexibility

Dual Massage Unit

The dual massage unit works in conjunction with Adjustable Beds to soothe and relax the shoulders, back and legs. It has 4 massage settings to enhance and relieve those tired areas of the body.

Only available for the slat system bedframes.
