

Office space available for School Representative within the Students Union

Passed: 17/11/15

An idea to allow the 10 School representatives access to their own office space in order to have a private space for leasing with student reps as well as working on their portfolios. Also allows us an easy access storage space for materials for the SU on Tour and allows for a drop box service for a one stop shop for contacting a school rep. This could further be developed into a whistle blowing service as was previously discussed at our school rep training meeting
