

Laura Alice Wheeldon

Chelsea Officer

Hi! I'm Laura. I'm gonna save you the time of having to read an essay-like manifesto and just summarise the key points.

1. Longer library opening hours. There's nothing worse than needing something printed at 10 on a wednesday only to find it won't open til 10:30. I'd aim to standardise weekday opening hours
2. Printers outside the library. As the first may not be possible, I aim to implement a printer in the side room by the canteen that's accessible outside of library hours.
3. More reasonably priced food and wider options. The canteen is very expensive for standard mass produced food, not only that but there is rarely a vegan/ GF option besides and sandwich or two. I would seek to increase the range available for those with dietary requirements and try discount food for students.

Along with these, I'll run termly feedback forms to see what you guys want to change or remain.

Thanks!

Laura
