

Maria Inês Sousa Maia

Postgraduate Officer

Hi there,

I am here to tell you how I am a good candidate for this role, but more importantly to tell you my story, so you can get to know me.

I am originally from Portugal but have been in a lot of places in the world. I know Holland like the palm of my hand, I've backpacked in Brasil, Portugal, and I have lived in Vietnam for some time volunteering as a guardian for orphanage kids. I am familiarized with different cultures, even the most different from ours, and I simply love meeting new people, it always adds something different and interesting to my life.

This being said, I believe I am a very open and easy person to approach and talk. I aim to be here for every student's needs and you can count on me to represent the Postgraduate's department like a true entrepreneur!

Looking forward to meeting all you students!

Please, vote for me and you will have the best represent I can be!
