

# Nikkita Ahuja

## Student Trustee

My name is Nikkita Ahuja and I am running for Student Trustee. I would be a perfect candidate for financial, staffing and governance structures of SU because I have a passion for our student body and its goals, the right attitude and traits for a successful term, and experiences that prepare me for the job.

I love UAL and community that comes with it, so I am enthusiastic to represent it. This is why I am currently a course representative for my BA product design course and was a representative last year for my foundation course. I have the drive and knowledge of the SU systems from these experiences, which would make me an excellent candidate.

I would be a great representative of our student body's interests because I am organized, and have good listening and communication skills. I am good at conveying and summarizing ideas in concise ways, so I think that I would be able to convey our needs clearly throughout the year.

Having previously worked in student government and Model United Nations, I have an interest in leadership positions and have the skills to negotiate in favor of our goals. I also feel that I am social and adaptable, making me an easy person to come to with any questions, suggestions or problems. I also have experience in managing financial budgets and accounts while I was working as an accountant for a naturopathic clinic, which allows me the skills to manage our union's budget and legal requirements.
