

Sanusha Nath

Central Saint Martins Student Council Representative

my agenda as being a student council representative of central saint martins would only be to put forward the opinions and discomforts of the students studying in my college. I would like to work for them and serve them at my best and work for the the growth of my college and make this big family a happy one! I would like to contribute my support and my experience from my school days in here and make it a memorable yet an enjoyable journey for each and every student. As college life comes once in a life time and having an amazing college life is like an icing on the cake. I feel im best for this post as im capable of helping people and also im very comfortable in chatting with new people and solving their issues thus this quality of me makes me best suited for this post.
