

WHAT IS RON?

RON stands for Re-Open Nominations. If students don't think that any of the candidates are suitable then they can choose to vote for RON. If RON wins any election,

that election is re-run. In the case of Executive Officer elections, if RON is elected before all 6 posts are filled, this fictional example highlights what would happen:

1912 Abertay SA Executive Officer election results:

Candidate	Round 1
Sam	100
Alex	120
RON	54
Jason	24
Mikey	47
Declan	19
Kyle	6

Quota 53

Sam and Alex have been elected. As RON achieved the quota ahead of the remaining 4 candidates, a by-election will be held in October 1912

for the remaining 4 places. RON's election result here, doesn't remove Alex and Sam from being Executive Officers.
