- FA National Youth Council Leadership Development Project Officer
- Manchester FA Young Leader Academy Project Officer
- CIMSPA Youth Panel Member
- MMU Sport Volunteering Ambassador
- BUCS Football Development Student Management Group Chair
- Course Representative
- Residential Advisor

WHAT DO I STAND FOR?

HOW WILL I CHANGE IT ?

Accountability

- The Union and the university should be held to **account**. This requires a student voice who will ask the tough questions and not waiver against tough decisions.

Transparency

- At the present moment, the *student* voice operates behind closed doors and behind-the-scenes. This leads to leaving *students in the dark* about decisions which are *impacting them*.

- The student voice needs to be **transparent** with the *communication* and measures that will be impacting them.

Inclusivity

- With our **student community** growing and our society *diversifying*, now is the time we need to become a more open, **welcoming** community.

- Our strength in our ties are what hold us together, and what keep us **strong**. With a *polarising* nation, where **young people's** interests are ignored, we need to become a more unified voice, which encourages students from all backgrounds to **bee together**.

Accountability

- Hold termly **meetings** are held for students to challenge the *student* officers

- A **report** will be circulated to *students*, which will highlight the work the Student Voice is doing.

- An online **chat** system for *students* to access their student officers.

Transparency

- Publishing accounts of **meetings** which they are representing *students*.

- Provide a monthly online tracking document where *students* can see progress with current projects.

- Lobby the university for greater understanding and clarity on where our **tuition fees** are going and *why*.

Inclusivity

- This includes creating a specific **budget** for our protected groups to access, to hold **events** and **projects** which enhances their experience.

- Have mandatory lecture **shout-outs** for students to be aware of the **services** available to them.

- Create a more-welcoming **environment** within the **Student** Voice Office.
