Shuab Gamote

Stronger Together

Who am I?

Hi, I'm Shuab, an Accounting student that believes in a better MMU, a greener, more tolerant University, where students are treated fairly and want to spend time on campus building and sustaining their network of peers, in a world-class environment. My team and I are running for office because we believe that we can create our vision, a vision that puts MMU at the top of student satisfaction. My name is Shuab and I believe in MMU.

Experience

President and founder of The First Generation Society, President of Somali Society and University Ambassador

Pledges

Organising STEM engagement evenings for students from a BAME background across all ranges. To create awareness about opportunities available both at University and outside. Provide a space for BAME professionals to pass down knowledge and share experiences. Ensuring the curriculum reflects our diverse student body.

Hosting activities all year round that help relieve your general university stress. Think ball pits and pop-up cinemas! And to also fight for prompt, accessible and effective mental health support on campus and ensure the sustainability of the work already carried out by our stretched wellbeing team!

The Union is here to represent and support you during your time at University. I want to make sure you know who your Officers are and what they're doing. As President, I will take time to listen to your concerns by ensuring all Officers spend at least one hour a week talking to and engaging with a variety of students across campus.

Why vote me?

I love Manchester and I love this university, I believe that we can push through anything we put our mind to, we have a responsibility to our community and future MMU students and I am committed to creating a better Union for the generations to come. I am confident and charismatic about the projects I want to bring to this great university, but most importantly I am a kind and caring person who believes that every individual matters no matter the background. Together we are stronger!
