

Hi, I'm Ruksar and I am running for the position of **Education Officer**.

I am a Masters Public Relations student, with a BA in Economics. I have worked as a Student Ambassador and Course Rep during my time at university. At college, I was the Student Governor, where I successfully represented students. I am running for this position, because I love encouraging students to reach their full potential, I am supportive, approachable and have a desire to drive results!

If elected, I would aim to:

- Hold a series of campaigns aimed at getting students more involved in academic services, to assist their studies and gain the highest quality academic experience.
- Increase social activity by running weekly socials to build soft skills like confidence, effective communication, organization and team building, which can be used in a professional role.
- Assist students in their transition into a professional career, by seeking new work opportunities, providing experience and invaluable training.

You should vote for me because, these aims will have a positive impact in leading YOU to success.

Thank you for reading my manifesto, follow my social to see my campaign journey and ask questions about my ideas!!
