

My name is Ugo, I am a second year student of History and Politics.

I am running for the position of societies and development officer

I am a matured student with loads of experience in leadership

A good listener, creative, calm in stressful situations, accommodates different opinions, good management skills and sound ability in handling criticisms

If I am elected I will work very hard with humility to enhance MMU societies and pursue more developments in students welfare such as organising exciting cheap trips, leisure to keep young students engaged and finally to promote peace, unity and progress among MMU students.
