

SU Environmental Projects Team

2018-19 Action Plan

The focus projects for the Environmental Projects team for the Lent term follows extensive consultation during Michaelmas term 2018 (Sustainability Ideas Mini-Conference) and discussions around practicability of delivery. Whilst this aims to be an exhaustive list, it may be that additional projects materialise on a dynamic basis as the year progresses.

- **Resources, Waste & the Circular Economy**
 - A1 skips large group trip (Sat)
 - Campaign for Tetrapak recycling facilities on campus
 - Bring-your-own Tupperware campaign at food outlets on campus
 - Signs on water fountains around campus
 - Pendle & Food waste composting trial (liaise with Emily Delaney to assess viability of this).

- **Agriculture & Biodiversity**
 - Reforest Hardknott residential weekend trip
 - (Forest of the Future – to be delivered by Facilities, supported by EPT)
 - Seasonal growing document
 - Foraging workshop
 - Chicken Farm/Farm visit
 - Mammals survey
 - Community kitchen mapping
 - Sustainable food options on campus
 - Palm Oil Day during GL Week
 - Eden North talk

- **Energy**
 - 24/01 Ambassador Training session 2
 - LU wind turbine visit
 - Caton Moor wind turbines trip, offshore wind turbine trip.

- **Transport**
 - Cyclist list consultation event to address concerns.
 - Low Carbon International Travel & Funding – info, campaigning

- **SU Sustainability Survey**
 - Liaise with SU Comm's team to timeline a well promoted & effective survey to assess Lancaster student opinion on environmental sustainability issues at Lancaster and beyond.

All events supported by the admin, driving and logistics based shifts.
