

Katie Starns

FOR

VP Student Wellbeing

I promise to...

1. Ensure there is support provided for students regarding mental health and wellbeing.
2. Continue to ensure the university has a happy, healthy and secure environment on every campus and improve upon this where necessary.
3. Support students so that they do not have to face unreasonable decisions alone.
4. Ensure all young men have the support and access they need with regards to mental health.
5. Ensure sports teams receive the support and advice they need with regards to all welfare issues and continue to include the sports teams in representation to the university.
6. Enhance and develop the welfare officer scheme that is already in place.
7. Address the perceived problem of lack of diversity and inclusion among students at Brookes.
8. Continue to improve security in and around campus so that students feel safe at all times when at university.
9. Promote the network opportunities available to all students from all backgrounds that are available at university.
10. Continue to seek to eradicate students feeling loneliness and isolation when at university by hosting a range of events on and off campus.
