

Salford students...

Let's do good in this time of Corona virus!

In these stressful times, our communities are pulling together. Friends are picking up prescriptions. Neighbours are calling up isolated people in their area. Kind souls are buying groceries for total strangers.

Students like you want to get involved.

We want to help you to do so safely and within the latest government guidelines.

Five Ways To Help Locally

- 1) Volunteer with your local council's Corona virus relief effort
- 2) If you're in Salford, you can register as an Emergency Response Volunteer here tasks may include: taking calls from residents about what they need, organizing help and support for them and delivering food and toiletries
- 3) Donate money to Salford4Good – Emergency Reponse Fund (COVID-19) fundraiser
- 4) Donate money and food to local foodbanks
- 5) Connect with your neighbours online! Look at Covid Mutual Aid UK to find your local group, and if you're on campus, join Salford Campus Connections on Facebook

Stay Safe When Volunteering

- Respect everyone's privacy, helping vulnerable people requires mutual trust e.g. don't share any private information
- Minimize time spent out of the house
- Combine trips e.g. if food shopping for your neighbour, do your food shop at the same time
- Stay two meters apart from other people
- Stay home if you have symptoms of Coronavirus
- Follow the latest health advice from the Public Health England
- Carry a mobile phone and tell someone where you're going

Log Hours For Awards!

We want to give you awards! Log your hours and skills here. Then we can feature you as our social media Volunteer under the Spotlight and tell the world about your amazing volunteering!
