*Annual
Residents'
Meeting*

27. A Residents' Meeting will occur as the Annual Residents' Meeting each year in the second semester of the University Calendar, at a date and time specified by the Committee.

28. The Committee will present to members at the Annual Residents' Meeting a report upon its activities throughout the year, and a statement of financial accounts.

Appendix 4 – Financial Guidance

1. Associations will remain financially independent of the Students' Union, but in order to make financial processes more efficient, as well as making Association finances more transparent, accounts are held in the Students' Union financial systems, rather than in holding external accounts. Committees can decide how to spend their own funds in accordance with the Association's objectives.
2. All expenditure by an Association must be for the objectives of the Association.
3. Associations will need to submit original receipts or invoices and, in the case of any significant expenditure - as defined at paragraphs 19 and 20 below - appropriate democratic authorisation to show they are spending their membership money appropriately and as agreed through formal student-led decision making processes.
4. Signatories from the Committee shall be required to authorise all payment requests. Invoices can be raised and payments may be made through the Students' Union credit card via the Residents' Association Support Coordinator (e.g., online purchases); wherever possible, payment will be paid directly from the Students' Union and then deducted from the Association's account. This will eliminate the need for Committee members to carry large quantities of cash.
5. To request a payment or any form of expenditure transaction (including reimbursing expenses), the signatories will need to complete a Payment Request form and pass it and associated receipts/quotations to the RA Support Coordinator for processing.
6. Anything that cannot be paid for directly (e.g., through invoice, bank transfer or Students' Union managed credit card), the signatory will be given cash from the Association's funds and required to produce proof of expenditure to the Students' Union within 1 week.
7. Account balances will be readily available for full members of the Association and will be produced on a fortnightly basis to the signatories. Account balances shall also be made available upon request to authorised members of the Pastoral Team.
8. Associations shall not be bound by the policies of the Students' Union; however, they shall adhere to operational regulations and processes and their own constitution.

2013/14 Finance Regulations

Budget Setting

9. Chairs and Treasurers are required to attend annual budgeting training organised by the Students' Union. Each Committee is required to produce a budget after annual training which must be made available to all members of the Association. Assistance in the budgeting process shall be provided by Students' Union staff.

10. The budget will be based on the annual plan of the Committee and will form a vital measure of the effectiveness of the Committee in delivering best value benefit to the members of the Association over the year. The budget will be made available to the Residents Association Support Coordinator.
11. The Association will be provided with price lists for goods and services they may purchase from the Students' Union, e.g., for minibus rental and catering, to inform their budget setting.
12. Committees can amend their budgets in order to take into account changes to activities and new ideas; however, any amended budget must be provided to the Residents' Association Support Coordinator.

Limitations of Residents' Association funds

13. Committees may not authorise Association funds to be used in the following ways:
 - a. party political campaigning; or
 - b. personal items for private (i.e., not Association-wide) benefit. Goods may be funded if they are considered to be key equipment for the Association's legitimate activities and can be retained by the Association and recorded on its asset register.
14. Committee members' expenses cannot be claimed for private and personal benefit, which includes alcohol, social events, personal subsidies to events, or personal food.
15. Associations' funds may also not be used for donations to charities; money collected for the express and public purpose of charitable donation must be clearly marked as such when paid in and will be kept by the Students' Union in a separate account from the main funds of the Association.

Signatories

16. The Students' Union requires that each Association provides named signatories for their financial transactions. These will normally be the Chair and Treasurer. Full contact details shall be provided for these signatories to allow effective communications.
17. Requests for payment will only be considered legitimate from these named signatories and both individuals shall be required to sign-off payment requests. In the case of email requests, it is acceptable for the email request to be sent from one signatory and the second to be copied in to the email; however, the Students' Union reserves the right to seek formal (written/verbal) agreement from the second signatory before authorising payment.
18. Associations may at the Committee's request define up to two 'oversight' contacts. These are individuals (such as Wardens) who the Association and the Students'

Union will copy into any correspondence concerning payment requests and account balances. These individuals will not be considered signatories in terms of being able to authorise payments unless documentary evidence is provided from the Association (such as minutes of a democratic meeting).

19. Where payment requests exceed a pre-arranged level (which will be set according to paragraph 20 below), payment will only be authorised with the evidence of authentic minutes from a Committee meeting where the expenditure was approved.

20. The bands shall be set according to the annual membership fee income of each Association:

Annual Membership fee income	Expenditure request level at which proof of democratic mandate is required
Up to £10,000	£750
Above £10,000	£1000

21. Associations may sign up and pay for University Sport league entry without a minuted democratic mandate by asking the Students' Union to raise a payment to the appropriate University department through the Payments Request form. This exception is based on an Association signing up for the same (or fewer) number of teams and sports as the previous year. If an Association wishes to sign up additional teams or for more sports, this must be approved at a Committee meeting if it will be over the threshold, usually at the end of the previous academic year.

Accessing funds

22. Requests for withdrawal of funds can be made via email or by visiting the Residents' Association Support Coordinator. These requests, where appropriate, must be accompanied by minutes of a meeting proving that the expenditure had been formally approved in line with the Association's democratic decision making processes.

23. All requests for fund withdrawals must be accompanied by a Payment Request form available in the Activities Centre or online via the following link:
<http://manchesterstudentsunion.com/rafinance>.

24. The Students' Union reserves the right to challenge expenditure requests where:

- i. insufficient proof of legitimate democratic decision making is provided by the signatory;
- ii. where expenditure is not in line with the objectives of the Association; and/or

- iii. where the object of the expenditure is deemed to be inefficient, wasteful or an alternative supplier could return better value for money for the membership of the Association.
25. This challenge shall take the form of correspondence between the Residents' Association Support Coordinator and the signatories.
 26. Money will only be issued to the signatories unless exceptional arrangements have been made between the Association and the Students' Union.
 27. Payments will be made directly to suppliers where possible, to avoid signatories carrying cash. Where impossible, signatories may be given cash and they will need to produce receipts within 1 week of issue.
 28. Payments can be requested via email to the Residents' Association RA Support Coordinator. Payments will be made twice a week (Tuesday & Friday) to ensure activities are not held up by processing times. Payment request forms must be provided by 3pm on those days to be processed, otherwise the request will be held over until the next payment date.
 29. The claim-back system will be in place for signatories wishing to buy low-cost items and claim the money back retrospectively.
 30. Associations may request payment for items using the Students' Union credit card.
 31. Where possible, Association should request an invoice which can be paid by the Students' Union. In this case, once the Association has sourced the goods/items it wishes to purchase, it simply needs to submit a Payments Request form with invoice to the Residents' Association Support Coordinator.

Accounting and auditing

32. Any funds remaining in the Association's account at the end of the year remain the property of the Association and will be carried over into the next year.
33. Associations may hold up to £50 in petty cash for small transactions. Receipts must still be collected and submitted.
34. If Associations raise funds themselves, these must be paid into their Students' Union account within 7 working days.
35. Any commission received from ticket sales of Association events must be paid into the Association's Students' Union account within 7 working days.
36. Each Association must maintain an Asset Register detailing all assets owned by the Association worth more than £50. The Students' Union shall assist where appropriate in keeping the Asset Register up to date and may conduct an annual audit of the Association's assets. New assets purchased must be added to the Asset Register. The sale or disposal of assets must be approved by the Committee and appropriately recorded in the Asset Register.

37. The Students' Union will carry out all transactions, checks and balances within the Association's accounts in line with the Students' Union financial procedures. Where there are any discrepancies, the Students' Union will raise them immediately with the Committee and report the action to the University.
38. The Students' Union will arrange for the audit of the Association's accounts and the Association must comply with this.
39. The Students' Union staff may meet with the Committee to discuss matters of financial concern. Each Association shall follow any rules set out by the Students' Union with regard to taxation and comply with all regulations made by HM Revenue and Customs.

Suppliers

40. Where Associations wish to use commercial opportunities through the Students' Union, separate arrangements will be made to facilitate these systems; however the principles of democratic accountability, financial good governance and transparency shall be adhered to. Requests to access these services should be made in the first instance through the Residents' Association Support Coordinator.
41. The Students' Union and Senior Students' Council will provide a list of suggested suppliers to which Associations may propose additions. For all expenditure over £200, the Association must obtain two or more quotations to ensure best value. These quotations must be kept on record.

Appendix 5 – Residents’ Association Group

1. Proposed changes to the constitution or a proposal to dissolve the Association (“Proposal”) must be submitted to the Residents’ Association Group in writing not less than 14 days before the vote.
2. The Residents’ Association Group will be comprised of the General Secretary and Director of the Students’ Union, the University’s Director of Residential Services, Pastoral Care Manager and a representative from its Office of the General Counsel.
3. The Residents’ Association Group will consult with the members of Association making the Proposal before deciding whether to approve or veto the Proposal.
4. A Proposal in relation to the constitution that is approved by the Residents’ Association Group shall be presented to the Chairs of all Residents’ Associations of the University.
5. For the avoidance of doubt, a Proposal must be approved by the Residents’ Association Group before it may be put to a vote of the full members of the Association.
6. A change to the constitution shall only be ratified and come into force once it has been voted on, and approved by, all Residents’ Associations of the University.
7. A Proposal in relation to the dissolution of the Association will be ratified and come into force once it has been voted on, and approved by, the full members of the Association.
8. Where a Proposal to dissolve the Association has been ratified and come into force, the Residents’ Association Group, not the Association, will be responsible for deciding how to deal with the assets and liabilities of the Association.

Appendix 6 - Health & Safety Guidelines

Associations at the University carry out an extremely wide range of activities, some of which involve risks that are new, or unpredictable, or unusual. They cannot provide a risk-free environment. However, they must strive to ensure that they make well-informed decisions, and are responsible and considerate about the risks they encounter during their activities.

This statement sets out what is expected of Associations' committees and members to ensure the safety and welfare of themselves and others. The Residents' Association Support Team at the Students' Union is available to provide support on matters of health and safety and any questions or concerns should be directed to it in the first instance.

Committee members: must take responsibility for health and safety for all Association activities and must:

- ensure all activities are properly planned and the health, safety and welfare of all attendees is fully considered;
- ensure risk assessments are put in place and recommended precautions are acted upon;
- raise any health and safety concerns or queries with the Residents' Association Support Team to ensure best practice is followed;
- attend any relevant training sessions offered to ensure they maintain up to date knowledge of health and safety procedures; and
- ensure that Events Packs are submitted where required by the University.

All members: are encouraged to participate in decision making processes and must:

- report any accident occurring during Association activities which results in personal injury or ill health, however minor and every dangerous occurrence, including fire, using the relevant procedure;
 - report "near miss" incidents which have the potential to cause injury or ill health, using the relevant procedure;
 - not proceed with any activity if they feel it poses a threat to their health and safety, or to that of others;
 - familiarise themselves with relevant risk assessments for their activities; and
 - assist any visitors, who may not be familiar with relevant health and safety procedures, to the best of their abilities.
- a. **Review and update arrangements:** this policy statement will be reviewed annually by the Residents' Association Support Team and updated as necessary.
 - b. **Consequences of non-compliance:** health and safety management should provide a very positive contribution to the management and success of Associations. Non-compliance with this policy statement will therefore be viewed as a serious matter

which may ultimately be subject to the Students' Union's/University's procedures for misconduct of students and student groups.
