Doug Shaw

Artist & Workplace Consultant

Doug works with customers all over the world co-creating and enabling more effective ways to work, in pursuit of strengthening the connections and experience between employees, customers, and the wider community. Facilitating useful, productive conversations and actions to drive business improvement, connecting people, and exploring and applying the creative process is at the heart of what he loves to help people with.

Doug's work includes cocreating, delivering and facilitating leadership development programmes, events and workshops, communities of practice, and collaborative projects; mixing, research, data, conversations and insight with the creative use of social technology and art.

Doug invites people to collaborate, experiment and problem solve better and help people overcome the vulnerability and fear that often limits these critically important skills.

Clients include Disney, Herman Miller, ADP, Thomson Reuters, Crossrail, The Latvian Government, NATS, Xilinx, Aviva Investors, Rio Tinto, Guide Dogs for the Blind, BIG Lottery Fund, Sage, National Employment Savings Trust, CIPD, PPMA.

Stephen Bowden

BSc (Hons) CEerHF CIEHF EurErg

Stephen Bowden BSc (Hons) C.ErgHF MIEHF EurErg is a chartered member of the Chartered Institute of Ergonomics and Human Factors (CIEHF), registered with the Centre for Registration of European Ergonomists (CREE), a senior associate member of the Royal Society of Medicine and a member of the British Council of Offices (BCO).

Stephen Bowden is a workplace ergonomics expert with a proven track record of helping organisations across multiple industries from office, manufacturing, defence and healthcare to integrate ergonomics into their businesses. Stephen's main areas of interest are musculoskeletal disorders within the workplace, an ergonomics approach to wellbeing and productivity, activity-based working, user centred design and the risks of being sedentary at work.

Stephen has been involved in ergonomics since 2004 graduating from Loughborough University where he studied Human Factors and Ergonomics. As an Ergonomist, Stephen has completed work for a number of blue chip clients such as Johnson Matthey, Google, BAE Systems, Fellowes and Birdseye for example.

Rosalind Lambert-Porter

MSc MIOA MIED MInstSCE

Ros is a highly experienced acoustics consultant specialising in workplace noise, psychoacoustics and building acoustics. She has degrees in both Audiology and Applied Acoustics and holds memberships to the Institute of Acoustics, the Institute of Engineering Designers and the Institute of Sound and Communications Engineers.

Ros' client list includes architects, property developers, furniture dealers, manufacturers, musicians, engineers and head teachers. With consulting experience on three continents, Ros has had extensive experience on all sizes of projects for major hotel and property developments, airports, corporate headquarters, universities and public sector buildings.
