Melamine MDF Desktop**

*Break the
Sitting Habit!*

HEIGHT ADJUSTING INSTRUCTIONS

1. Opening and locking the switch

Move the switch on both sides in either direction to allow the desktop to move up or down to the desired height. To lock the switch, move the switch back to the middle.

2. Height settings

Every 15 degrees the joint can be locked allowing you to set the desk at a suitable height.

3. Lifting the desktop

With the switches open, put your hand under the desktop to find the reinforced bar. Lift the whole desktop to a suitable height at 15 degree increments. Lock the switches.

4. Lowering the desktop

With the switches open, push the desktop down to a suitable height at 15 degree increments. Lock the switches.

10

the increase in heart beats per minute when standing

33

the percent increase of calories burnt caused by standing

11

the equivalent burning of calories as running 11 marathons when standing three hours a day, 5 days a week for a year

2

the number of years extra life expectancy by sitting for fewer than 3 hours a day
