Upgrade your VXI sensor with seamless camera integration

The integrated VXI-CMOD is activated when the outdoor VXI sensor detects an intruder; it records the event and sends a notification to the owners' paired mobile device(s).

## OPTEX Vision

Dedicated smartphone app for VXI-CMOD is available in the App Store and Google Play.

Via the OPTEX Vision App, up to three users can simultaneously access the live view and stored recordings.

## Problem Solving

A simple security system without control panel

I don't have an alarm panel but would like to be notified on my phone if anyone is entering my garden and see what is happening.

VXI and VXI-CMOD provides you with a simple visual verification system which doesn't require connection to an alarm panel.

You don't have to be home to know what is happening in your premises

I want to check that my children have arrived safely back home.

You can keep an eye on your premises through a smartphone application even at night with IR light.

Verify if it is really an intrusion

I want to quickly verify what has triggered the alarm to take the appropriate action. notified and can access the live camera view and recording to determine if it is an intruder.

## Specifications

| Model | VXI-CMOD |
| :---: | :---: |
| Wireless connectivity | IEEE $802.11 \mathrm{~b} / \mathrm{g} / \mathrm{n}$ |
| Data encryption | AES 128-bit data encryption via proprietary P2P connection protocol |
| Security | WEP/ WPA/ WPA2 (TKIP, 128-bit AES) |
| Simultaneous viewers | Max. 3 concurrent viewers <br> *Performance may be impacted when connecting to multiple mobile devices simultaneously. |
| Image sensor | 2 Megapixel or Full HD |
| Image resolution | 1,080 P/ 720 P/VGA (Selectable by APP) |
| Viewing angle | H: $180^{\circ} \mathrm{V}$ : $100^{\circ}$ |
| Minimum illumination | 0 lux (with IR illumination) |
| Night vision | IR LED with IR-Cut switcher |
| Image compression | H. 264 High profile |
| Image resolution | Full HD |
| Frame rate | 15 FPS |
| Recording period | 30 sec . (inc. $2 \mathrm{~s} \mathrm{pre-record)}$ |
| Memory Storage | microSD card (32 GB max.) <br> SD card not provided/ Only FAT 32 format compatible/ Format with OPTEX Vision APP. |
| Power supply | 9.5 to 24 V DC |
| Power consumption | IR low mode : $400 \mathrm{~mA} \mathrm{max}$. / IR high mode : 1.0 A max. |
| Wake up time | 2 min . |
| Recording trigger1 | Alarm, Tamper, Trouble (N.O./N.C.) |
| LED indicator | 1 LED (red and blue) |
| Microphone | 1 input |
| Mode selector | high/low |
| Internal/ External antenna selector | Internal/ External selectable <br> External antenna [CMOD-ANT] is separate option |
| Location | Outdoor/Indoor |
| Operating temperature | $-10^{\circ} \mathrm{C}$ to $+50^{\circ} \mathrm{C}$ |
| Operating humidity | 90\% max. (Non condensed) TBE |
| IP rate | IP 55 |
| Weight | 280 g |
