- If you spin an item which another player has already collected, you may take that item from the other player and add it to your checkout playing board.
- Play continues until all players have filled their checkout playing boards.
- At the end of the game, all players turn over their shopping cards to reveal and count how many shopping points they have collected.

### The winner

The winner is the player with the most shopping points.

### A quicker game for younger players:

Play as above but the winner is the first player to fill their checkout playing board with shopping cards.
