

Colour Cars

Contents:

32 car cards, 3 rainbow campervan cards which count as any colour or car type

Setting up

- Deal each player four cards to spread out, face up, in front of them.
- Place the remaining cards face down in a pile on the table.
- Turn the top card from the pile over and place it face up next to the pile.

Object

To be the first to play all of your cards by matching either the type or colour of the cars.

To play

- The youngest player begins. If you have a card that matches either the colour or car type on the central card, place your card on top of it. If you do not have a matching card, pick up the top card from the face down pile and add it to your cards.
- A rainbow campervan card can be used at any time during the game. If you want to use it, say which card you want the card to represent while placing it on the pile of face up cards.
- The next player can then play the card of their choosing, providing it matches the colour or car type the previous player has said it represents.
- If the cards in the central pile run out, shuffle the face up cards and place them face down, turning over the top card and placing it next to the new pile.

The winner

The winner is the first player to play all of their cards.
