

# Easter Bunny Mask

Enjoy making this sweet Easter bunny mask. A simple craft activity that is perfect for keeping little ones busy and having fun over the Easter break.

## You will need:

- 1 white paper plate
- A small sheet of pink card
- A small sheet of white card
- White cotton wool
- 3 pink pipe cleaners
- A pair of scissors
- A glue stick
- Sticky tape
- A grown up to help you

Using your scissors first cut a circle out of the centre of your plate (getting an adult to help you).

Then stick the cotton wool around the rim of the plate with your glue stick.

Using your pencil, draw big bunny ears on your white card and slightly smaller ears on your pink card.

Use your glue to stick the pink ears onto the centre of the white ears.

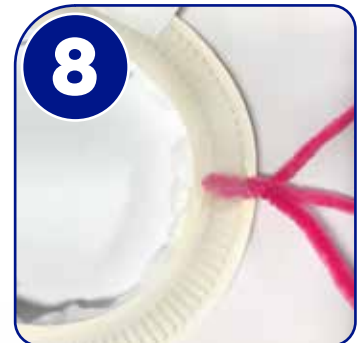

Next, stick the ears face down onto the back of your plate.

Make sure the ears are stuck on the right way with the pink facing up (as seen in this photo).

Twist your three pink pipe cleaners together and cut them in the middle (with the help of an adult.) These will be your whiskers.

Finally, turn the plate over so it is face down on the table. Using either your glue or sellotape, stick your whiskers onto the back of your plate.

Hooray - your Easter bunny mask is now ready to play and get creative with!
