

What a Performance!

Make your own cards

Why not make your own challenge cards for our What a Performance game?
Get creative and think up some of your own weird and wacky challenges.

- 1 Think up some of your own challenges and write them onto the cards. Use a light blue felt tip pen to write your forfeits on the back of the cards.
- 2 Then colour your cards, stick them to thin cardboard (an old cereal box is ideal), and cut them out, adding the backs.
- 3 Now add them to your What a Performance game for extra fun!
