

GB Pizza, Pizza!

Contents:

25 shaped pizza slice cards, 4 pizza boards, 1 double spinner,
1 Head Chef board

Setting up

- Each player takes a pizza board and places it in front of them.
- All the shaped pizza slice cards are spread on the table, topping side down.
- The Head Chef board and the spinner are placed in the middle of the table.

Object

To fill your pizza board with delicious pizza slices.

To play

- The youngest player begins by spinning both spinners.
- They then choose a pizza slice card from the table that matches either the colour **or** the shape shown on one of the spinners and place it, topping side up, on the corresponding space on their pizza board.
- However, if the pizza slice they have turned over shows a gruesome topping (with a striped edge), the Head Chef will make them throw it away! Everyone shouts "In the bin!" and the slice is put onto the swing bin on the Head Chef board.
- If a player spins and doesn't have a matching shape or colour visible on their board (because it is covered by a pizza slice card), then they do not pick up a slice on that turn.
- If either spinner points to a picture of a hand, the player can take a pizza slice from another player's board. They must choose carefully, making sure that the slice they choose matches an empty space on their board (this can be checked by looking at the edge of the other players' pizzas). If nobody has a slice that player needs, they can take a slice from the table that matches the other spinner instead.
- Note: if both spinners point to the hand pictures the player can only take **one** slice from another player.
- Play then passes to the next player.

The winner

The winner is the first player to fill their board with delicious pizza slices and shout 'pizza, pizza!'

After the game:

Once players have made their pizzas, they can talk about which toppings are their favourite. Which are yummy? Which are yucky? Which toppings go together the best?

Players can also try cooking up their very own delicious pizzas with four tasty, child-friendly recipes.
