

Sweet Dreams Biscuits

Put your Jelly Babies to bed with these sweet treats!

This simple no-cook recipe is the perfect activity for a rainy day!
Make delicious biscuits and show off your bed making skills!

You will need:

- A packet of Malted Milk biscuits
- A packet of Jelly Babies
- Ready-to-roll icing (and a sprinkling of icing sugar)
- Edible decorations, coloured icing, sprinkles etc

On a clean surface, sprinkle a little icing sugar and roll out the icing to a few millimetres thick.

Carefully using a knife (getting an adult to help you) cut rectangles out of the icing that are slightly bigger than your biscuits.

Place a Jelly Baby onto your biscuit. Fold down one edge of your icing blanket and place over your Jelly Baby.

Tuck your jelly baby in! Press gently all around the Jelly Baby so the icing moulds to its shape and sticks to the biscuit.

Have lots of fun decorating your blanket. You could use small sweets, icing, food colouring, sprinkles or even edible glitter!

Zzzzz!
