| 15. Ambient mic    | XLR (mic provided)               | Positioned off stage |

### Monitor

Ideally the band require 5 mixes across 5 wedges. If this is not possible then a minimum of 3 mixes across 3 wedges is required.

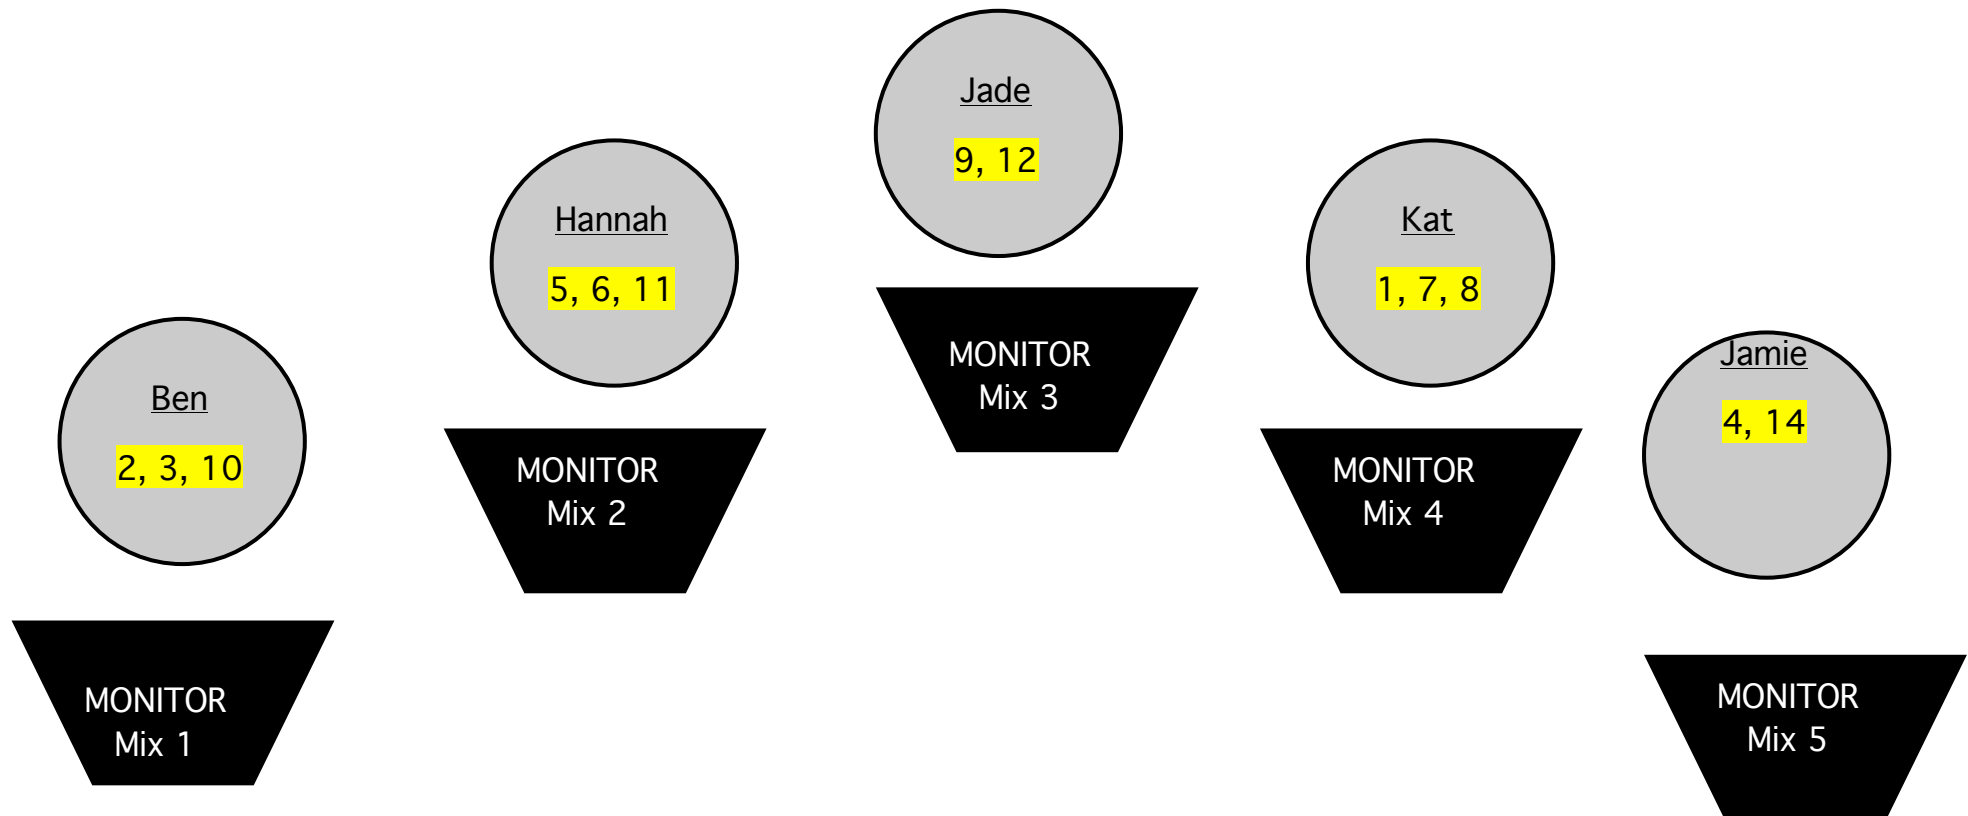

### Effects

Ideally 3 effects sends set to a Reverb Plate, a Large Hall and a Tap Delay are required. If you are a smaller venue then the minimum requirement is one send to reverb.

If in doubt please contact the bands engineer Pete Ord at [peteord@googlemail.com](mailto:peteord@googlemail.com)

# A WINTER UNION
