

JACOB & DRINKWATER TECHNICAL RIDER 2017

Stage plan

We require:

2 x stage monitors – preferably separate mixes, but we can work with one mix

2 x vocal mics (SM58s or similar, we usually travel with our own, in case)

2 x XLR cables with phantom power for acoustic guitar & double bass DIs (we have our own DI boxes)

1 x mic for electric guitar amp (sm57 or C414 – again we carry a 57 usually)

Power at stage front for pedals, and power stage rear for guitar amp

Some water on stage for during performance, please.

All of our promotional details: photos, blurbs of varying length and links are here in our dropbox folder:
