Def Leppard is an English rock band formed in 1977 in Sheffield, England. Their strongest commercial success came between the early 1980s and the early 1990s. Their 1981 album *High 'n' Dry*, was produced by "Mutt" Lange, and the album's stand out track "Bringin' On the Heartbreak" became one of the first rock videos played on MTV in 1982. The band's next studio album, *Pyromania* in 1983, with "Photograph" as the lead single, turned Def Leppard into a US household name. *Pyromania* was certified Diamond in the US. Def Leppard's fourth album *Hysteria*, released in 1987, topped the US and UK album charts. As of 2009, it had reached beyond the success of *Pyromania*, having been certified 12x platinum for sales of over 12 million in the US and has since gone on to sell over 20 million copies worldwide. The album spawned seven singles, including the US Billboard number one "Love Bites", alongside "Pour Some Sugar on Me", "Hysteria", "Armageddon It", "Animal", "Rocket", and "Women", all of which you will hear at a **PYROSTERIA** show. Def Leppard is one of only five rock bands to have ever sold more than 100 million records worldwide, with the albums *Pyromania* & *Hysteria* achieving RIAA diamond certifications. **PYROSTERIA** pays tribute to the success that Def Leppard created in the 80's and enjoys today and into the future.
