

KISS TROYER

*“West Coast’s Hottest
KISS Tribute Band”*

EPK 2022

Kisstroyer USA rocks America!

Kisstroyer USA is a tribute to one of the greatest rock and roll bands of all time, KISS. Featuring the look, feel, sound, stage show, and music of the 1970's era KISS, Kisstroyer USA brings a spectacular performance to life in any venue. They focus on songs from the three KISS "Alive" albums. Kisstroyer USA leads an exhilarating trip down memory lane with classic hits like Detroit Rock City, Love Gun, Shout It Out Loud, Heaven's on Fire, Rock Roll All Nite, plus many more. They replicate the full costumes, high heels, makeup and stage show that you've seen in every KISS concert. Including the Spaceman's smoking guitar solo, the Demon spitting blood, the Catman's drum solo, and Starchild's amazing vocals and witty banter. Kisstroyer USA is about so much more than just playing great rock 'n' roll music. You'll feel as if you were at an actual KISS concert!

Over the years they have played for corporate events, private parties, and numerous clubs. With over 35 KISS songs, they can perform nearly 3 hours of music and entertainment.

One other memorable part of the Kisstroyer USA concert experience includes a photo opportunity. This allows fans and audience members to personally interact with the band and take photos with the band members. This is always a big hit with the crowd and is certainly one of Kisstroyer USA's favorite things to do.
