

DUBAI ELECTRICITY & WATER AUTHORITY

Performance you can trust

CUSTOMER

The Dubai Electricity & Water Authority is a government organisation which generates electricity and water for the Emirates of Dubai.

APPLICATION DETAILS

The Dubai Electricity & Water Authority required a lubricant for the wire ropes used in lifting gas turbines. The previous product used dripped on the floors which was an inconvenience during lifting and maintenance activities and created a slip hazard.

RECOMMENDED PRODUCT

BIOGEN WIRESHIELD®

BENEFITS & COST SAVINGS

Dubai Electricity and Water Authority are very pleased with the results of WIRESHIELD™. The product meets their specification and shows no signs of dripping, resulting in the floors remaining clean and safe avoiding any health and safety issues.
