APPLICATION DETAILS

Prysmian Group required a biodegradable wire rope lubricant for the SUBSEA ROV Umbilical's within the aquatic environment.

WIRESHIELD™ Biogen ROV has unique properties, allowing great penetration due to the Pseudo plastic Rheology. As the product is Biodegradable it meets the customers' requirements and allows safe operations within the environment.

BENEFITS & COST SAVINGS

WIRESHIELD™ Biogen ROV has unique properties, allowing great penetration due to the Pseudo plastic Rheology. As the product is Biodegradable it meets the customers' requirements and allows safe operations within the environment.

Customer Feedback

"WIRESHIELD Biogen ROV has allowed us to lubricate our Umbilical's safely, complying with the OECD 306 test and reducing our impact on marine life. Due to its performance it allows us to work in the harshest of environments with confidence that our Umbilical's will be fully protected."
