Welcome to Utility Warehouse

A cheaper way to buy

Utility Warehouse is a Discount Club operated by Utility Warehouse Limited, which is a wholly owned subsidiary of Telecom Plus PLC, a British company in the FTSE 250. We provide a wide range of essential utility services to over 30,000 small & medium sized businesses throughout the UK.

- Our members benefit from substantial savings on their Gas, Electricity, Phone, Broadband, Mobiles and Non-Geographic Numbers, combined with the convenience of just a single monthly bill.
- Members can choose to use as many (or few) of our services as they wish. The more services you choose, the more you can save!
- Members can also save between 3% and 7% Cashback at 50 leading retailers - and 1% everywhere else - on the cost of their shopping (both personal and business) by using our exclusive CashBack card.

Instead of spending money advertising our services, we rely instead on existing customers to recommend us to their friends, family and business colleagues. The money we save is used to provide our members with consistently low prices on all the services we offer. It's that simple!

To ensure the highest possible standards, our customer service centre is located right here in the UK. In the event you should need to contact us, you will be helped by a highly trained adviser who will deal with your query personally, professionally and as quickly as possible.

If this sounds like your sort of Club, we'd be delighted to welcome you as a member.

- (i) Members who successfully apply for at least four different services (ie. Gold Status) will receive a £10 a month discount on their broadband service (if taken from us) for their first six months.
- (ii) A choice of routers is available with no upfront payment, but subject to a postage and packing charge of £5.99. All routers supplied by us remain our property at all times unless you have purchased it from us. A monthly rental charge is payable on routers we supply as follows: Value Router - £0; Premium Router - £1; Super Router - £2. If the router develops a fault at any time it will be replaced by us without charge, although you must return the faulty router to us or pay us the purchase price shown in this paragraph. You can also upgrade your router at any time. If the broadband service we are supplying to you is terminated for any reason, you must either return the router to us at your expense, or pay us for the router; the purchase price varies between £30 and £90, including VAT, depending on the router you have chosen, but the price you will have to pay will be reduced by 50% after two years.
- (iii) Our Standard fixed line broadband service at £26 (including line rental) is only available if your phone line is connected to an exchange on our Main (LLU) network. Otherwise we will provide you with our comparable broadband service on our Extended (BT) network where technically possible, which will be subject to a £10 monthly surcharge.
- (iv) Our Ultra/Ultra+ broadband services are currently available to around 85% of the UK, and may require one of our engineers to visit your business premises.
- (v) You must have a working compatible fixed telephone line on which the line rental is being billed by us to use our fixed line broadband services; we are unable to supply broadband on multi-line phone services.
- (vi) Static IP addresses are available upon request to customers taking our fixed line broadband services at the following rates: 1 for Free; Block of 4 (2 useable) for Free; Block of 8 (6 useable) for £5 per month; Block of 16 (14 useable) for £10 per month.
- (vii) The speeds shown above (apart from Mobile Broadband) are average speeds our customers receive at peak times; the actual speed is subject to availability at your local exchange and we will provide the best speed available for your line for the service you have chosen.
- (viii) There is no minimum contract term for customers using our Mobile Broadband Service where we have not supplied a Pocket Wireless Router.

* Maximum possible speed for this product; broadband speeds can be influenced by a number of factors.

Cheap International Calls

Calls from the UK to International destinations using your Utility Warehouse mobile phone are charged at the same low 'pence per minute' rates which apply to calls made using our Landline Phone service, as set out below:

Argentina	20p	Monaco	16p
Australia	10p	New Zealand	10p
Brazil	25p	Pakistan	20p
Canada	8p	Peru	40p
China	15p	Philippines	30p

Japan	8p	Switzerland	8p
Korea (South)	25p	Taiwan	20p
Malaysia	20p	Turkey	18p
Mexico	20p	USA	8p

i) Calls to other destinations are available on request.

ii) Calls to non-UK mobile numbers from the UK (excluding Canada, USA and EU countries) will be charged at the appropriate International rate plus a surcharge of 36p per minute.

Roam Like Home

Inclusive calls, texts and data on all our mobile price plans can be used for roaming in most European countries at no extra cost. If your price plan includes over 10GB of data, certain restrictions apply. For more information, see uwdc.co.uk/roamlikehome.

(i) 'Anynet' means calls to any UK mobile network or UK landline number (starting 01, 02, 03) and includes voicemail retrieval. (ii) Where we have supplied you with a handset, you will need to pay a monthly handset charge (as shown in our mobile handset guide) for the duration of your minimum contract term, in addition to the charge for your chosen price plan as shown above; thereafter your monthly payment will automatically reduce to the cost of your underlying chosen price plan. (iii) Call set-up fees do not apply when calling EU landline or mobile numbers from the UK. (iv) Calls to the Channel Islands and the Isle of Man are charged at 15p per minute, and are not included in any free or inclusive call allowances. (v) For details of other International call prices, roaming costs, and all other charges, please refer to our website.

Energy

Gas and Electricity

Peace of mind

Our low-cost tariffs are designed to provide business customers with consistently good value on their gas and electricity, across a wide range of usage profiles.

These include customers running their own business from home, through to small and medium-sized commercial premises such as shops, churches, workshops and office buildings.

No contracts

Unlike most other suppliers of commercial energy, we won't tie you into a long-term contract – so you are free to take advantage of cheaper gas and electricity prices if the wholesale price of energy becomes cheaper in future.

You'll also have the peace of mind which comes from knowing that if we don't remain competitive, you can switch to another supplier without penalty at any time!

Easy to switch

In order to benefit from our energy services, your premises must meet the following criteria:

Gas – we can supply premises with an annual consumption profile up to 292,780kWh (equivalent to around £10,000 of gas each year).

Electricity – your premises must have an electricity meter with a profile 01, 02, 03 or 04. The profile class of your electricity meter is included in the Supply Number on your current electricity bill, as indicated in the diagram below.

The number in red must be 01, 02, 03 or 04

00	000	000
XX	0000	0000

We are unable to supply Business energy to customers where energy usage is wholly or mainly for domestic purposes.

The Small Print (applies to all customers)

The Utility Warehouse Discount Club for Business offers savings on a wide range of essential services to business customers. Membership costs £2 per month (included on your monthly bill) and provides a wide range of benefits. All telephony call charges shown are in pence per minute and billed on a per second basis unless otherwise stated. We reserve the right to waive any charges at our sole discretion. Prices in this brochure are effective from 1 August 2019 and exclude VAT (except for those shown for our mobile services). VAT is applied to the ex-VAT total of all charges for each service and is mathematically rounded to the nearest penny. Different charges may apply for any services provided prior to 31 July 2019 in accordance with our previous published tariff. This document, together with our Terms and Conditions, contains all the terms of the agreement between you and us. In the event of any discrepancy between the pricing on our website and any other published price information, the web pricing will take precedence.

More Small Print (applies to each service as shown)

Landline Phone

If we have provided a new line, then our Landline Phone service is subject to a minimum contract term of 12 months; if you wish to cancel your service you must give a minimum of 30 days notice; such notice cannot be given before the end of any applicable minimum contract term. All call charges (unless otherwise stated) are flat rate and apply anytime, any day. Calls to non-UK mobile numbers (other than numbers in North America) will be charged at the appropriate international rate plus a surcharge of up to 30p per minute. Calls to international ISDN data, international premium rate or audiotext numbers may be charged at higher rates than the standard international call charge. Prices for calls to non-geographic, premium rate and other international destinations not shown in this booklet are available on request. Only calls to UK numbers (beginning 01, 02, 03) and UK mobiles (beginning with 07) are included in the call bundles available on this service – the duration of each of these calls is rounded up to the nearest whole minute and deducted from your allowance and any unused inclusive minutes remaining at the end of the month are lost. Occasionally, for technical reasons beyond our control, a call that is made very close to the end of a billing period may be deducted from your inclusive call allowance for the following billing period. All chargeable calls are billed per second, rounded up to the nearest whole penny, and a call set-up fee of 8p is then added. If your line rental service is transferred to us from BT, you will continue to receive any Select Services you had previously chosen, with the exception of 'Customer Controlled Call Barring' which is not available from us. Select Services will be invoiced by us on your monthly bill at a discount of at least 10% to the applicable standard BT retail price for each service. We may not be able to provide line rental service to customers who do not have a BT line. To benefit from Free calls to other members' the member being called must also be using a landline phone service being billed by us; the maximum duration of each free call is 75 minutes, after which standard call charges apply; the free calls must be to a standard UK number beginning 01, 02 or 03 connected to our Phone, Internet Phone, Home Phone, Home Internet Phone, or FreeCall service. Free member to member calls are in addition to any Call Bundle calls. In calculating your total call spend for Volume Discount purposes, calls to premium rate numbers (eg. 09XXX), Directory Enquiry services and the Speaking Clock are excluded; in addition, Volume Discounts are not applied to any calls of this type.

Broadband (including Mobile Broadband)

Broadband services are subject to a minimum contract term as shown in this booklet. If we replace a router we have supplied for any reason (eg. a faulty or upgrade), or your fixed line broadband service is terminated for any reason, then you must return the router no longer needed to use the broadband service back to us at your expense; any routers not returned will be charged for as set out in this booklet. An administration fee of £10 is payable when any fixed line broadband service is cancelled or disconnected at any time, in addition to any early termination fees which may be payable and/or any charge relating to the non-return of the router(s) we have provided (if applicable). Provision of our Broadband service is subject to availability on your local exchange and is not available to customers with cable lines. Actual speed achieved is dependent on line quality and distance from the local exchange. We will provide the fastest speed available on your line for the broadband service you have requested. On our Mobile Broadband service (i) early termination fees apply if we have provided a Pocket Wireless Router, calculated in the same way as for mobile handsets supplied by us; the monthly charge for a Pocket Wireless Router is £4. (ii) any data used in excess of your inclusive allowance will be charged at 15p per MB within the UK. (iii) any overseas data used outside the EU will cost from £1.20 per MB dependent on the country in which it is being used, rounded up to the nearest whole MB. Full details are available on our website.

Mobile

If we have supplied you with a handset on any of our price plans it will be subject to a 24 month minimum contract term, and you will have to pay an early termination fee if, before the expiry of the minimum contract term: i) the service is disconnected for any reason; or ii) you ask us to port your number to an alternative provider; or iii) you lose the handset we have provided and wish to terminate the service rather than sourcing an alternative handset to use in its place. Please refer to our Terms and Conditions for details on how early termination fees are calculated. Any mobile handsets supplied may be locked to our network and are subject to credit checking and availability. There is no charge for switching between price plans, although you may only request one price plan change in any consecutive six-monthly period. If we agree to transfer you to a different price plan, then the new price plan will become effective on the 1st of the month following the date on which we process your request, or at your option if you are moving to a price plan with a higher fixed monthly charge, the 1st of the month preceding the date on which we process your request. If you are on Budget Control, all price plan changes will become effective on the 1st of the month following the date on which we process your request. Except where explicitly stated, our charges and inclusive allowances exclude calls made or texts sent: (i) to non-UK numbers; (ii) to premium rate numbers in the UK (eg. 09xxx); (iii) while roaming outside the EU; and (iv) to Call Access numbers. Any calls or texts which use data (eg: WhatsApp) will be charged at the applicable data rate. You will not be charged for calls diverted to your voicemail, or to set up or cancel the call divert facility; except while roaming. With the exception of calls to numbers beginning 08, 09 or 118, the duration of each call is rounded up to the nearest whole minute and deducted from any inclusive call allowance. Charges for the standard rate of call, as applicable, then the ex VAT price of each chargeable call is subject to a set-up fee of 5p and rounded up to the nearest whole penny. Any inclusive allowance remaining at the end of a month is lost and does not 'roll over' to the subsequent month; occasionally, for technical reasons beyond our control, a call that is made very close to the end of a billing period may be included in your inclusive calls allowance for the following billing period. International calls are subject to a call set-up charge of 10p. Inclusive free texts only applies to text messages sent while you are within the UK to other UK mobiles and is subject to you not sending text messages to more than 200 different numbers during any calendar month; if you exceed this limit we reserve the right to charge individually for each text you have sent at a price of 4p per text message. While roaming, calls to our customer service number are charged at standard roaming rates for the country you are in. For customers who have selected our Budget Control option, international calls will be charged on your monthly bill. All SIM cards are supplied with an international and roaming call bar for your protection which can be lifted on request, however we reserve the right not to lift the international and/or roaming bar at our sole discretion, and/or to require a deposit where you have not yet established a satisfactory payment history with us. Budget Control is not available on BlackBerry handsets. While roaming inside the EU, calls, text messages and data usage will be deducted from your inclusive allowance or charged at the applicable out of bundle cost for your price plan; details of our EU roaming surcharges (and any fair use policy which applies) are shown on our website. While roaming outside the EU, calls made (or received) and text messages sent are chargeable at international call and SMS rates; these vary depending on the country you are in, duration, type of call/text, and destination (where applicable). Picture messages are chargeable at higher rates. Any data used while roaming outside the EU will cost from 50p per MB dependent on the country in which it is being used, rounded up to the nearest whole MB. Calls to numbers beginning 08 (but excluding 0800 and 0808), 09 or 118 made using our mobile service (eg: 0845, 0870, 09XXX) will be charged by adding the service charge set by the organisation you are calling to our published mobile service access charge for these types of calls. The access charge is calculated on a 'per second' basis subject to a minimum of one minute per call, rounded up to the nearest whole penny. You will be charged for each call on the network that provided the service, even if this was not your intended Communications Provider; to prevent this from happening, you should turn off 'automatic network selection' on your handset and manually select the preferred network - this is particularly important in areas close to national borders (where calls may be charged as if you were roaming) and when travelling outside the UK. A call ends when: i) you end the call on your device; or ii) 16 seconds after your calling device loses signal for any reason (note: we continue to maintain the call in case your device re-establishes a signal with our network within this period); or iii) you do not end the call on your device; up to 30 seconds after the last third party you were connected to has ended their call. Text messages that are over 160 characters' length may be split by your mobile device into smaller messages and recombined by the recipient's mobile device. In this event, each individual message is deducted from an inclusive allowance or charged at the appropriate rate for the text message, including the roaming rate, if you are abroad. Some Smart Phone Applications (Apps) send text messages to the App Developer when first used or activated and/or subsequently, and you may not be aware that such text messages have been sent. Any such messages will be deducted from any inclusive allowance or charged at the appropriate rate for the text message. Replacement SIM cards (if required) will be charged at £5 each. All claims under our Mobile Phone Protection Scheme are subject to an excess; for full details please refer to our Terms and Conditions booklet. Our Mobile service is subject to 30 days' notice, in addition to the minimum contract term which applies where we have supplied a handset; if you give us notice and subsequently port your number to another provider, then you will need to pay us your fixed monthly charges for the remainder of the notice period.

Energy

We provide a range of tariffs designed to provide consistently good value across a range of usage profiles – for electricity this is for customers with an 01, 02, 03 or 04 meter profile and for gas this is for customers with a maximum annual usage of up to 292,780 kWh per annum. Details of our prepayment and non-direct debit tariffs are available on request. Customers whose energy is used wholly or mainly for charitable purposes will be subject to VAT at the lower domestic rate and will not be liable for Climate Change Levy. Customers classified as 'non domestic' will be charged Climate Change Levy and VAT at the standard rate, in addition to any energy prices you are quoted.

NGN

All chargeable calls are billed per second and rounded up to the nearest whole penny. Call rebates on 0844 and 0871 numbers are paid on a per second basis and to the nearest tenth of a penny. CallCare license is subject to a monthly license fee of £4.

CashBack card

Each CashBack card is supplied subject to a one-off application fee of £5 which will be included on your next monthly utility bill from us. CashBack from our Retail Partners varies between 3% and 7% on qualifying spend only; CashBack at other retailers is payable at 1% on up to £1,000 of general spend each month (ie. maximum CashBack from other retailers is £10 per month). Exclusions apply (eg. Financial or quasi-financial transactions). There is a monthly fee of £2 per card; this applies from the date each card is issued, and also includes five free top-ups each month. Additional top-ups are charged at 35p each. Detailed terms and conditions are available on our website, and a printed copy will be sent to you with your card. This card is issued by Imagor SA/NV - Sodexo Group company; 15 boulevard de la Plaine, 1050 Brussels, Belgium. This is a prepaid card. For conditions of use, please visit the Utility Warehouse Business Club website.
