

A guide to our residential charges

Important information

Prices in this tariff guide are effective from the date of publication.

This tariff guide should be read in conjunction with our terms and conditions; taken together, these contain full details of all the costs and benefits associated with being a UW customer and the various services we provide, and you can find them on our website at www.uw.co.uk In the event of any discrepancy between the pricing on our website, and any other published price information, the web pricing will take precedence.

Prices in this Tariff Guide include VAT at the prevailing rate except where stated. VAT is applied to the ex VAT total of all charges for each service and is mathematically rounded to the nearest penny.

All call charges are shown in pence per minute unless otherwise stated; minimum call, access and set-up charges do not apply to 'free' or fixed-price calls, except where stated.

If you would like a copy of this Tariff Guide in an alternative format (e.g. braille or large print) please contact customer services.

Broadband

	Standard (LLU network)	Standard (off network)	Ultra	Ultra+	Full Fibre 100	Full Fibre 300
Average speed	11 Mbps	11 Mbps	35 Mbps	63 Mbps	100 Mbps	300 Mbps

Caller redirect £7

Caller return (1471) **Free**

Number withheld **Free**

Smart divert £2

Three way calling £2

Home phone usage charges

All call prices shown are pence per minute; chargeable calls are subject to call set-up fee of 23p except where otherwise stated.

UK calls	Weekdays (7am-7pm)	All other times
UW customers (landlines or mobiles)	Free	Free
UK local / national numbers (01, 02 and 03)	15p	15p
UK mobile numbers	15p	15p
Access charge for 084, 087, 09 and 118 numbers (replaces the call set-up fee)	12p	12p
Channel Islands and Isle of Man	6.5p	3.5p
Personal numbers (070)	1-50p	1-50p

Directory enquiries	
118 383 single enquiry	50p per call
118 338 multiple enquiries	70p per call
118 830	£1.55 per minute

- To benefit from free calls to other UW customers on their landline or mobile numbers, a customer must be making the call using our Home Phone service (includes Internet Phone), and the number being called must be connected to us.
- Calls to numbers beginning 08, 09 or 118 (excluding 0800 and 0808) made using our Home Phone service (eg. 0845/0870/09XXX) will be charged by adding the service charge set by the organisation you are calling, to our published access charge for these types of calls. The access charge will be calculated on a 'per second' basis subject to a minimum of one minute per call, rounded up to the nearest whole penny. The access charge replaces our standard call set up fee for these calls.
- Chargeable calls with a duration of less than three seconds are subject to a minimum call charge of 4.8p; with the exception of calls to numbers beginning 08, 09 and 118, the duration of other chargeable calls is rounded up to the nearest whole minute, charged at the 'per minute' rate for that type of call, the call set-up fee of 23p is then added, and then the ex VAT price of each call is rounded up to the nearest whole penny.
- 'Free Calls to other members' (other UW customers) and our Call Discount Options are not available to business users and are subject to a maximum of 200 different numbers being called in any calendar month; any excess will be charged at 8p per minute. If we have reason to believe a customer is using any Call Discount Option or inclusive call allowance, partly or wholly for business purposes, for accessing the internet or a data service, we reserve the right to withdraw this benefit from the customer. Any individual free call (except 0500/0800/0808) is subject to a maximum duration of 75 minutes, after which a charge of 1.5p per minute will apply.
- For our International Boost option, the duration of calls to eligible destinations is rounded up to the nearest whole minute and deducted from the inclusive call allowance; the balance of any inclusive allowance remaining at the end of a month is lost and does not 'roll over' to the subsequent month. Occasionally, for technical reasons beyond our control, a call that is made very close to the end of a billing period may be deducted from your inclusive calls allowance for the following billing period.
- Calls using a Textphone have a 30% discount applied for deaf/speech impaired members using services such as Relay UK.
- Calls to the Channel Islands and the Isle of Man are not included in any free or inclusive call allowances.
- You can see the listing for all usage charges [here](#).

- a. Prices shown (except for 'EU' countries) are subject to a call set-up fee of 23p for Home phone and 5p for mobile.
- b. Calls to non-UK mobile numbers (excluding USA, Canada and those countries marked 'EU' above) will be charged at the appropriate international rate shown above plus a surcharge of 36p per minute
- c. Our International Boost option, available on Home Phone, includes 1,000 minutes each month to landline numbers in the countries printed in red above: no set-up fee applies to these calls. Customers with International Boost who exceed their free monthly allowance will pay 1p per minute (plus any applicable call set-up charges and/or mobile surcharge to our top 50 countries shown in red above. You can see our detailed Home Phone tariff [here](#).
- d. International prices are flat rate and apply anytime, any day. Calls to international ISDN data, international Premium rate or Audiotext numbers may be charged at higher rates than the standard international call charge.

Mobile

All call prices shown are in pence per minute; chargeable calls are subject to a call set-up fee of 5p except where otherwise stated

	Value	Unlimited	Additional Unlimited

• Data (per MB) in the UK	2p	2p	2p
• Access charge to 08 (excluding 0800/0808), 09 and 118 numbers (in addition to the service charge for the number dialled)	30p	30p	30p
• UK non-mobile numbers beginning 07 (in addition to the service charge for the number dialled)	1-50p	1-50p	1-50p

Calls from the UK to any international destination are charged at the same low rates that apply to landline calls using our Home Phone service. See the Home phone and mobile international call charges section above.

Mobile - additional information

- a. A maximum of 3 additional Unlimited SIMs per account can be taken. See the Terms and Conditions on our website at uw.co.uk for full details.
- b. Inclusive monthly allowances apply to usage within the UK and EU only. Anynet minutes apply to standard UK local/national numbers (01, 02 and 03), UK mobiles and voicemail. Anynet texts apply to standard text messages to UK mobile numbers.
- c. You will not be charged for calls diverted to your voicemail, or to set up or cancel the call divert facility, except while roaming.
- d. Call set-up fee does not apply to calls from the UK to EU countries (landlines and mobile).
- e. With the exception of calls to numbers beginning 08, 09 or 118, the duration of each call is rounded up to the nearest whole minute and deducted from any inclusive call allowance or charged at the 'per minute' rate for that type of call, as applicable, then the ex VAT price of each chargeable call is subject to a set-up fee of 5p and rounded up to the nearest whole penny.
- f. Any inclusive allowance remaining at the end of a month is lost and does not 'roll over' to the subsequent month; occasionally, for technical reasons beyond our control, a call that is made very close to the end of a billing period may be included in your inclusive calls allowance for the following billing period.
- g. While roaming, calls to our '150' customer service number are charged at standard roaming rates for the country you are in.
- h. Calls using a Textphone have a 30% discount applied for deaf/speech impaired members using services such as Relay UK.
- i. Budget Control is not available on BlackBerry handsets.
- j. Calls to numbers beginning 08 (but excluding 0800 and 0808), 09 or 118 made using our mobile service (eg: 0845, 0870, 09XXX) will be charged by adding the service charge set by the organisation you are calling to our published mobile service access charge for these types of calls. The access charge is calculated on a 'per second' basis subject to a minimum of one minute per call, rounded up to the nearest whole penny.
- k. You will be charged for each call on the network that provided the service, even if this was not your intended Communications Provider; to prevent this from happening, you should turn off 'automatic network selection' on your handset and manually select the preferred network – this is particularly important in areas close to national borders (where calls may be charged as if you were roaming) and when travelling outside the UK.
- l. A call ends when:
 - 1. you end the call on your device; or
 - 2. 16 seconds after your calling device loses signal for any reason (note: we continue to maintain the call in case your device re-establishes a signal with our network within this period); or
 - 3. you do not end the call on your device, up to 30 seconds after the last third party you were connected to has ended their call."
- m. Text messages that are over 160 characters in length may be split by your mobile device into smaller messages and recombined by the recipient's mobile device. In this event, each individual message is deducted from any inclusive allowance or charged at the appropriate rate for the text message, including the roaming rate, if you are abroad.
- n. Some Smart Phone Applications (Apps) send text messages to the App Developer when first used or activated, and/or subsequently, and you may not be aware that such text messages have been sent. Any such messages will be deducted from any inclusive allowance or charged at the appropriate rate for the text message.
- o. Data usage is measured in bytes. There are 1024 bytes in a kilobyte (KB), 1024KB in a Megabyte (MB) and 1024MB in a Gigabyte (GB). You are billed for the total amount of data you use, both upstream (data sent by your device such as sending an email) and downstream (data received by your device such as viewing a webpage or receiving an email). This includes the data required by the network to control the session (such as source and destination network addresses and error detection codes), any data that is re-sent (if you refresh a webpage for example) and may differ from the data your device consumes and records. The total amount of data you use per session is recorded in bytes which are then converted to kilobytes, mathematically rounded to 2 decimal places and passed to us for billing. We combine your data sessions into a single daily total for data used (in KB) and deduct this from your inclusive data allowance. If you exceed your allowance, we charge you for the daily total amount of data used (in KB) at our published rate for your tariff rounded up to the nearest whole penny.

Mobile charges

Mobile additional charges		Mobile signal booster	
Number change	£20	Monthly rental	£2
Replacement Sim	£5	Damaged or lost signal booster	£60
Texts (where sent to more than 200 different numbers if you have an unlimited allowance)	4p per message	Non-return of signal booster	£60
Calls (where made to more than 200 different numbers if you have an unlimited allowance)	2p per minute
