

We believe the only way to do business is one-to-one

UW Partners recommend our services one neighbour at a time. They recommend the Partner opportunity one neighbour at a time. And through their passion and drive, we make local lives that little bit better, one neighbour at a time.

So in our first year of setting a clear and actionable Environmental, Social & Governance strategy, we're approaching it in exactly the same way. Not just our impact on a global scale, that can sometimes be hard to relate to or act upon. But the difference we can make with the people we see, the places we know, the neighbourhoods where we live.

One Culture

We want to build a strong UW culture - One Culture - where people find great opportunities, are treated as individuals and their contributions are valued.

One Neighbourhood

We want the neighbourhoods where we operate to thrive - One Neighbourhood - and will focus on the best interests of the people, businesses and customers we serve and work with.

One Planet

We recognise we're part of something much bigger than ourselves, so we also want to safeguard our planet - One Planet - for future generations.

We can have a big impact on our communities and neighbourhoods. It's all part of being a responsible and sustainable business, which is absolutely core to what we do.

Andrew Lindsay
Chief Executive
Officer

One neighbour at a time.
