

What humans can see

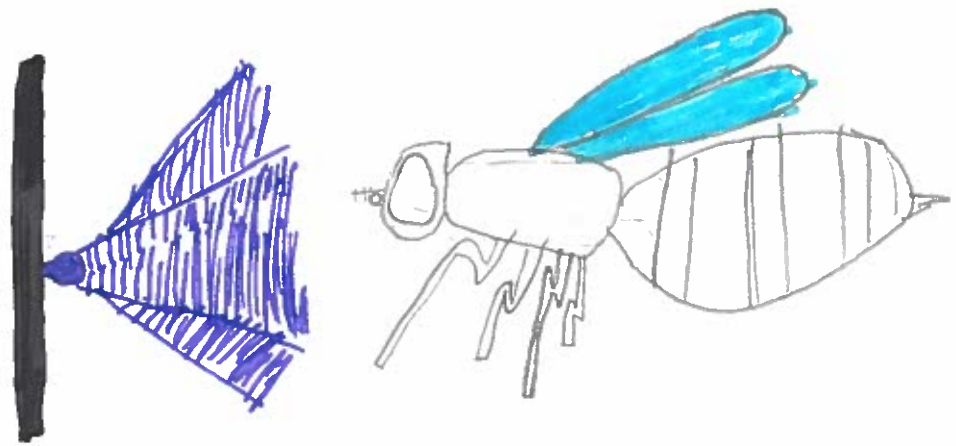

What bees see

Sam. KH
HC

They are attracted to a special light which we can't see.

chiter!

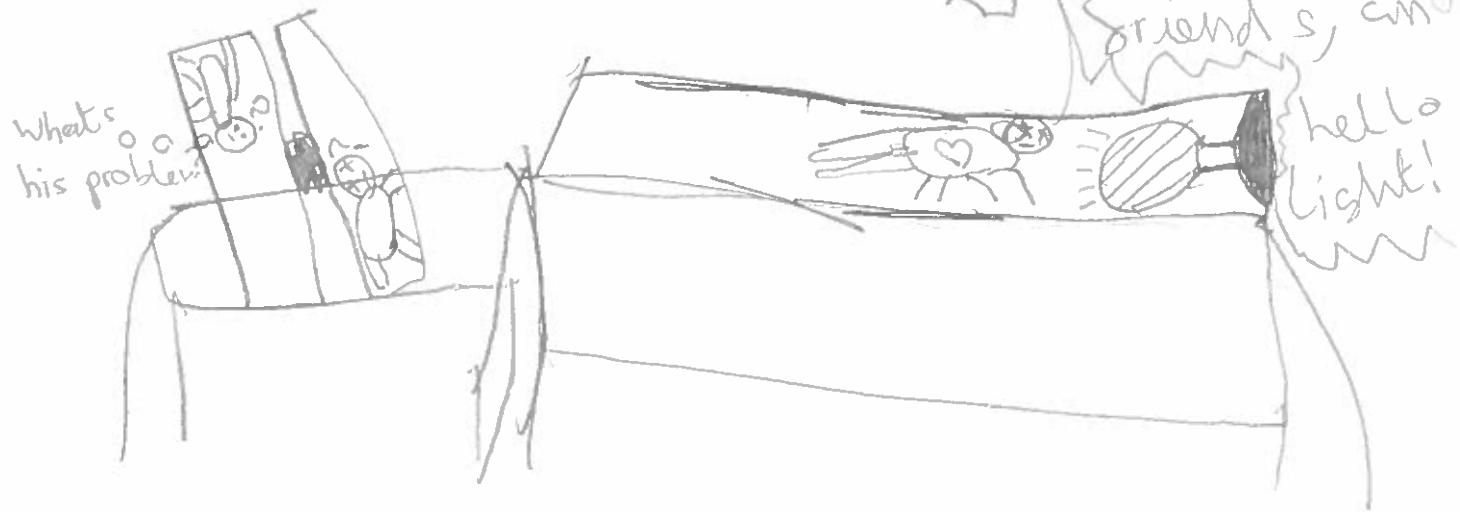

1st 9secs

Grand papy:
2nd 26secs

Grassh
Prashb!!!!

Flies are attracted to light so whenever light is
shining the flies go to the light

young
15 sec

Granparents
25 sec

young flies
are faster
than old
flies.

By samuel pan, in 4c

flies always walk up no matter what you do as they sense gravity

Amar 4C

Young: 12s Old: 50s

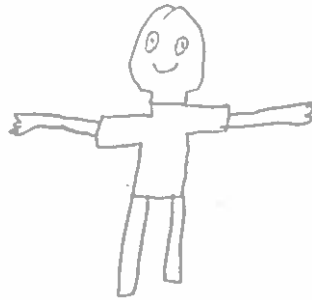

FLIAS ARE LIKE

MICHEL JACKS

N I N N I

Old 44 seconds
Young 8 seconds

I have learnt that flies get, star
when you give them warmth

Young flies

16

Old flies

2¹

I didn't know what a maggot was.

That maggot turns in to flies

The females are bigger than the males

The females are striped

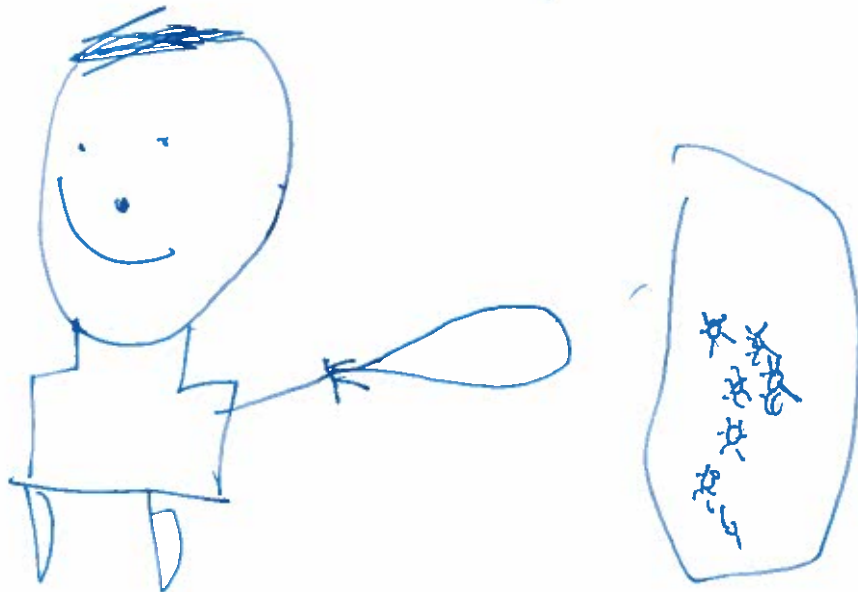

They like warm places

Array 4A

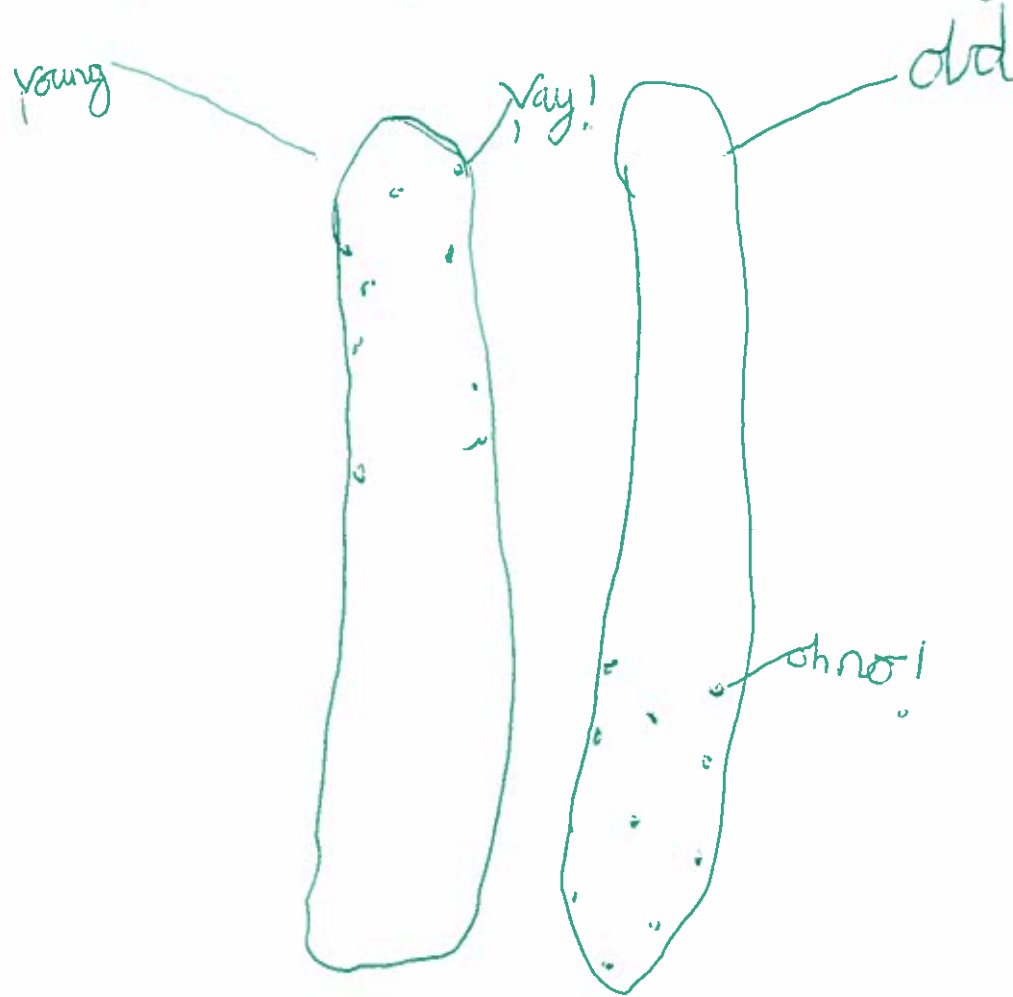

16 sec young

40 sec old old

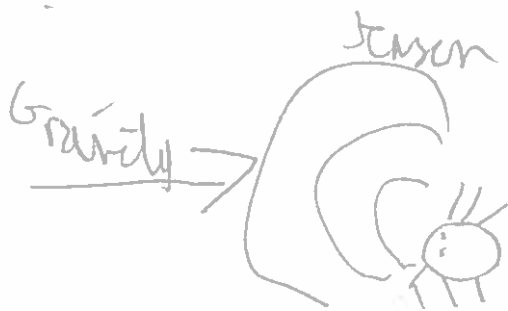

flies - You can make flies move wherever you want them to move

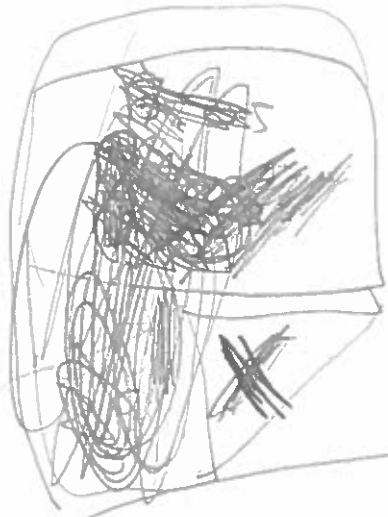

I found the old flies are slower than the young flies. Will B-J4C

I have learnt that flies can be motivated and like light. They can also ~~be~~ sense gravity.

\$: 95 = Young
= 125 =

That heat can paralyze them
I found out that Rahul is scared
OFFICER

He is also scared of maggots
They can sense the gravity
They are attracted to W.P. light

Gran : 36

child : 15

They can be paralysed by heating them up

Uyom mittal

40

I have learnt that gues can be purgised through my
ampits. Alex. c 6w

^u
A = 8 and 18 seconds

I've learnt that you can actually paralyse
flies, ~~is~~ - Zain

I've learnt that flies only live 8 weeks

- Harry

By Adam Melloy 4C

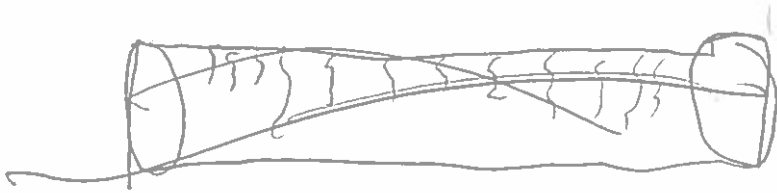

BZZ
ZZZZZ
ZZZZZ
Z!!!
I'm paralyzed
help I can't
move!!!
Waa Waa
Waa.

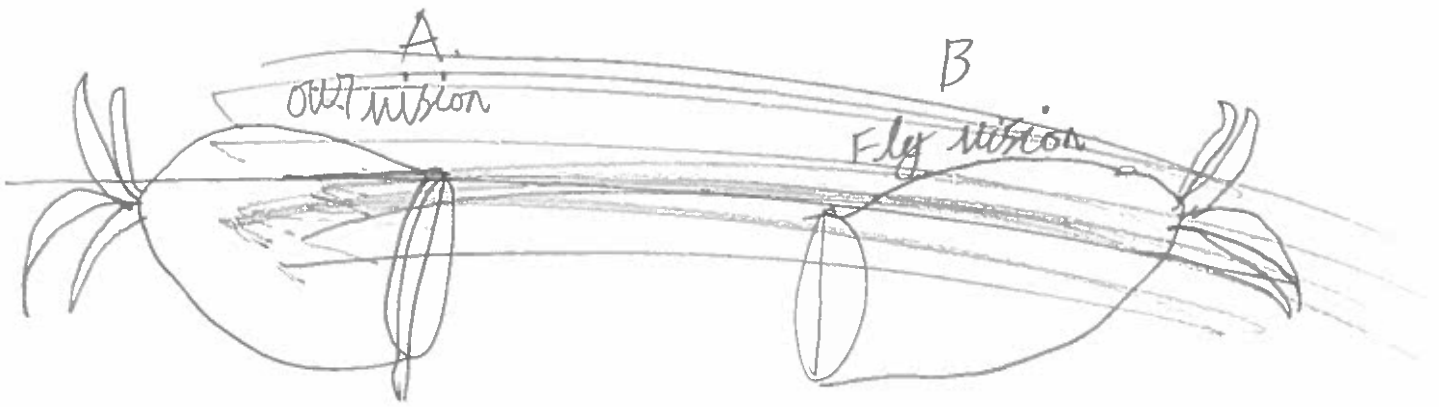

Me
to Mum.

~~you can control flies by heat.~~

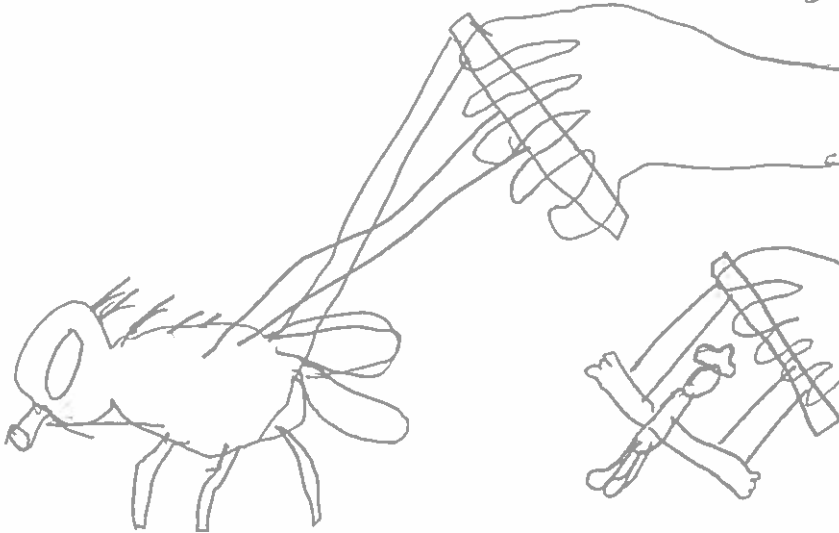

They can see UV light.

oscar 4c

you can control the flies by heat

Alamar Potia

4C

Young

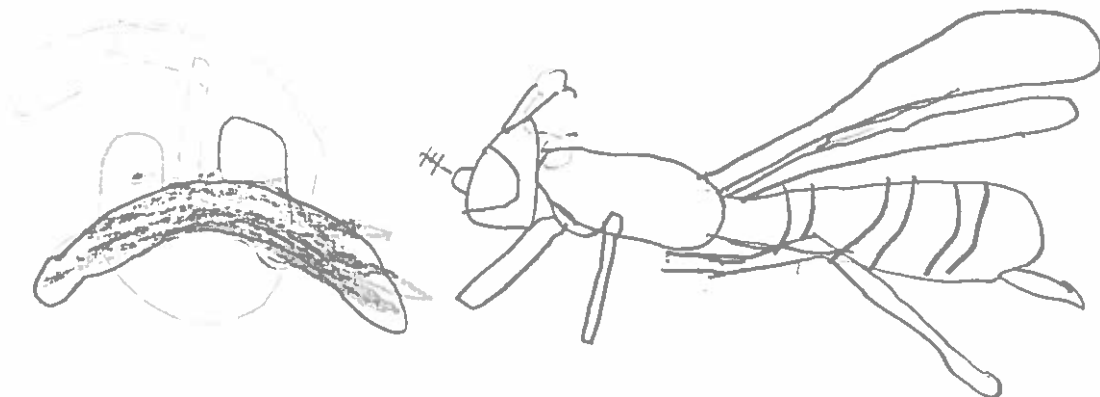

15

old

25

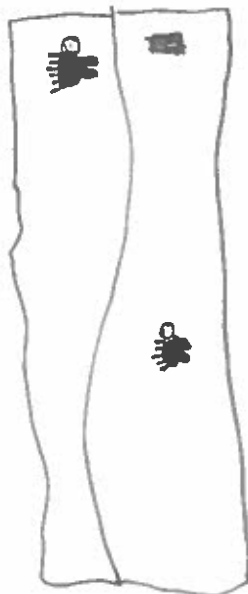

I have learned that flies get attracted by ultra violet meaning that they will go to the thing which they see as ultra violet

Zachary B 4C

glys are acctracted to light **AB**
the females are bigger than the males

Azan Sami 4A

Flye go upwards if even there is a blue light on the bottom.

You can paradise ~~fly~~ flys

~~Fly~~ Average flys live up to 8 weeks
Old flys are really slow

You can make a fly manumale.

Flys are attracted to UV light

Flys can be drunk

FLIES CAN DO THE MOON-
WALK

OLD: 11

Young: 11c

If you want
make the world
a better
place

Im talking
bout the
man in the
mirror

flies can moonwalk
like
Micheal Jackson

by Wilson Mullin
LA

Older: 25 seconds
Young: 9 seconds

Fly can move backwards by heat. They also can stop moving this is called being paralised
